Beyond Red and Blue
How Twelve Political Philosophies Shape American Debates

I want to thank the journalists, economists, philosophers, politicians, and other thinkers whose work I was able to draw upon when writing this book. Clay Morgan and others at the MIT Press have been most helpful, as were the anonymous reviewers. My wife Grace Wenz thought through with me the main ideas in this book before any work began and offered good advice whenever I turned to her. Finally, I want especially to thank my friend Deb Berman, who read everything at least once and made many valuable suggestions, thereby, among other things, protecting readers from some really tasteless humor.
