Accessing information
 as access to communication, 50–51, 158
 as access to economic goods, 53–54
 as access to knowledge, 45–48, 158
 case study in (*see* Case study in accessing information)
 and citizenship, 22–24, 37, 82–83, 158 (*see also* Accessing information, and political rights)
 and class distinctions, 4, 78–79
 conceptualizations of, 45–55, 158–159, 169
 constraints (*see* Limitations and constraints on access to information)
 context of, 56–58
 control of (*see* Control)
 dimensions of access, 20, 157, 169
 costs of, 53–54, 76–77, 90 (*see also* Costs)
 economics of, 76, 158
 and equality issues, 4–5, 22–24, 26, 54, 78, 83, 87, 300–301
 and evaluation, 119, 159
 experience as affecting, 59, 82
 framework for, 92–95
 as fundamental behavior, 3, 8, 312
 future research, 301–302
 influences (*see* Influences on access to information)
 and information science, 86–87
 and information society, 27–29, 87–88
 interdisciplinary approach to, 3, 7
 and knowledge management, 35–36
 in libraries, 19–24
 in library studies, 85–86
 limitations and constraints on (*see* Limitations and constraints on access to information)
 major issues regarding, 299
 in managed information systems, 33–35
 and networking, 34
 perception of as affecting use, 33
 through personal communication, 34, 153
 physical access as issue, 89 (*see also* Limitations and constraints on access to information)
 and political policy, 52–55, 300–301
 and political rights, 54–55, 90, 158 (*see also* Accessing information, and citizenship)
 and privacy, 32
 and socialization, 78–82
 source of information as affecting, 33
 technology and its effects (*see* Information technology)
 and value of information, 77–78, 90
Access to knowledge
 as access to information, 45–48, 158
 and citizenship, 47–48, 54–55
 and communication process, 47
Accidental findings, 228, 293
Active searching, 226–227, 228
Affective influences/constraints. *See* Influences on access to information; Limitations and constraints on access to information
Alcoholism, 138
Alternative search strategy
 browsing as, 11, 184

American Library Association, 19, 23
Amy's story, 149–151, 153, 155, 167
Anomalous states of knowledge, 25, 59, 86, 98, 163, 223
Architectural design
 and browsing information, 205–210
Assessment, 63, 219, 301
Associativity, 289
Audience research
 and browsing information, 196–200
Awareness
 as influence on access to information, 72–73

Barriers to information. *See* Information barriers
Behavioral dimension of browsing information, 214
Berrypicking, 180
Bibliographic information retrieval systems
 and browsing information, 189–191, 270–272
BROWSE system, 184
Browsing, 9, 173 (*see also* Browsing information)
Browsing information
 actions involved in, 179
 active vs. passive search, 226–227
 as alternative search technique, 11, 184
 in audience research literature, 196–200
 and berrypicking analogy, 180
 case study in (*see* Case study in browsing information)
 categories of, 176–177, 179–180
 characteristics of, 181
 and children, 192
 as compared with searching, 9–11
 computer-based, 185–186, 189–191, 231–236, 270–272, 305–307
 consequences of, 182
 conversation, 203–205
 described, 176, 185–186, 194, 201, 203, 206, 218, 228
 dimensions of, 177–180, 194, 214–215, 228, 289
 electronic messaging, 190–191
 environmental, 206
 evaluation and (*see* Evaluation)
 evaluative browsing, 272–276
 expansion browsing, 268
 factors of, 217
 focus browsing, 276–278
 forms of, 176–177
 as fundamental behavior, 3, 8–9, 222, 312
