

# Index

- Actualism  
change and, 292–295  
modality and, 398–400  
presentism and, 335n26, 367–368,  
398–400
- Adams, Fred, 312–313
- Adverbialism, 457–458
- Aggregation, 268
- Aging argument, 350
- Alteration, 3–5, 12–15  
Bradley Regress problem and, 21–23  
characterization of, 161–164  
temporal parts and, 161–169
- Aquinas, Thomas, 250
- Aristotle, 18–19  
causation and, 173–174  
persistence and, 170–174, 349
- Armstrong, D. M., 277, 288, 356, 377,  
433
- Atemporal instantiation, 12–15  
Bradley Regress problem and, 21–23  
four-dimensionalism and, 57–58  
monadic, 22–23  
nonmonadic, 22–23  
temporary intrinsics and, 20–24
- Balashov, Yuri, 451–470
- Boolean connectives, 66
- Boolos, G., 437
- Bradley Regress problem, 21–23, 433–  
435
- Braun, David, 312
- Burgess, John P., 437
- “Calculus of Individuals” (Leonard &  
Goodman), 56, 139–140, 146, 151,  
153–157
- Carter, William R., 18, 343–366
- Cartwright, Richard, 142–143
- Causation, 172, 334n23  
Aristotle and, 173–174  
existence and, 173–174  
ex nihilo existence and, 175–177  
gerundive view and, 174–175  
homogeneous disc argument and, 207–  
209  
immanent, 278  
non-supervenient relations and, 201–  
214  
ontological commitment and, 377–379
- Past is Nothing Principle and, 175,  
185n30
- presentism and, 316–317 (*see also*  
Presentism)
- Regularity Theory and, 177–178
- spinning spheres and, 189–200
- time and, 172–179
- Zeno-type paradoxes and, 205–207
- Change, 1–3  
alteration and, 12–15, 161–164  
causation and, 172–179  
denial of, 295–296

- Change (cont.)  
 duplicates and, 246  
 endurance and, 9–12, 236–240, 387–301  
 eternalism and, 291–292  
 exdurance and, 7–9  
 ex nihilo existence and, 170–172  
 factual, 233–234  
 incompatible properties and, 236–240, 287–289  
 intuitions about, 159–160  
 just having and, 290, 302n11  
 motion and, 38–39  
 partial endurance view and, 252–263  
 perdurance and, 5–6, 288–289  
 predication and, 244–249  
 presentism and, 292–296, 400–404  
 property gain/loss and, 159–169  
 relational solution and, 289–290  
 relativization variant and, 290  
 shape properties and, 296–298  
 temporary intrinsics and, 10–11, 20–24, 244–249
- Chisholm, Roderick, M., 63, 310, 351
- Chryssipus, 252
- Coincident objects, 101–105
- Consistency, 2–3, 7–8, 14  
 endurance and, 9–12, 268–271  
 perdurance and, 268–271  
 space-time and, 17
- Contradiction, 15
- Counting, 113nn21,22  
 coincident objects and, 101–105  
 exdurance and, 97–105
- Date theory, 409–410
- Dau, Paolo, 62
- de dicto analysis, 110–111
- Descartes, René, 197, 221–225
- Diachronic fusion, 73–78
- Dion, 252–255, 271–276
- Direction, 36
- Distance, 36
- Dretske, Fred, 377
- Duplicates, 246
- Ehring, Douglas, 213
- Empiricism, 249–250, 261
- Endurance, 3, 120–121, 132, 430  
 accidental intrinsics and, 269  
 Adverbialism and, 457–458  
 Bradley Regress and, 21–23  
 change and, 9–12, 236–240, 287–301  
 consistency and, 268–271  
 eternalism and, 221–230 (*see also* Eternalism)  
 field theory and, 249–252  
 four-dimensionalism and, 221–230  
 Galilean space-time and, 454–458  
 incompatible properties and, 346–347  
 indeterminacy and, 278–281  
 Indexicalism and, 457–458  
 maximality and, 122–123  
 modal variation and, 256–259  
 overlap and, 268–269  
 partial endurance view and, 252–263, 271–276  
 phenomenal inconsistency and, 268–271  
 predication and, 244–249, 256–259  
 quality distribution and, 249–250  
 relational solution and, 289–290  
 relativistic, 290, 458–462  
 Sorites paradox and, 274–276  
 space-time and, 17, 452–453, 458–462  
 special relativity and, 451–467  
 temporal intrinsics and, 10–11, 20–24, 244–249, 430–432  
 thing-stages and, 277–278  
 time and, 344–347  
 world plurality and, 51–54
- Equivalence, 243
- Eternalism, 15–18, 39–41  
 change and, 291–292  
 contradiction generation and, 291–292, 303n14

- four-dimensionalism and, 221–230
- partial endurance view and, 252–263
- persistence issues and, 241–263
- possibilism and, 367–368
- predication and, 244–249, 256–259
- presentism and, 292–295
- quality distribution and, 249–250
- shared view of, 291–292
- temporal intrinsics and, 15–18, 39–41, 244–249
- thing-stages and, 277–278
- Evans, Gareth, 73
- Events, 234–236
- Exdurance, 3, 7–9, 278
  - amplifications for, 108–111
  - classes of tropes and, 121–122
  - coincident objects and, 101–105
  - counting and, 97–105
  - de dicto analysis and, 110–111
  - four-dimensionalism and, 443–446
  - identity reliance and, 120–122
  - indeterminacy and, 278–281
  - Leibniz's Law and, 102
  - maximality and, 122–123
  - memory theory and, 102
  - naming and, 108–111
  - objections to, 105–108
  - occupancy approach and, 92–100
  - Parfit's puzzle and, 91–97
  - predication and, 119–120, 124–127
  - proper names and, 108–109
  - reference and, 127–132
  - reidentification and, 127–132
  - self-interested concern and, 91–95
  - space-time and, 16–17
  - surface tensing and, 20
  - temporal parts and, 7–9, 443–446
  - three-dimensionalism and, 94–95, 106
  - tropes and, 121–122
  - truth-conditions and, 127–132
  - vagueness and, 278–281
  - worm theory and, 91–95
- Existence
  - actualism and, 292–295
  - causation and, 173–174
  - ex aqua, 156
  - ex nihilo, 156, 170–172, 175–177
  - indeterminacy and, 278–281
  - modal issues and, 317–320, 355–360
  - multiple presents argument and, 354–355
  - partial endurance view and, 252–255, 271–276
  - predication and, 244–249
  - presentism and, 328–331 (*see also* Presentism)
  - pure becoming and, 348
  - puzzle of change and, 287–301
  - Sorites paradox and, 274–275
  - temporal parts and, 244–249, 344–347 (*see also* Temporal parts)
- Existence-at, 58–59
