 Nihilism, 10
 Nominalism, 14–15, 17, 20–22, 35, 163, 273–274, 283
 Notation
 contemporary, 262, 267
 fractional, 195
- graphical, 266
 logical, 278–279
 symbolic, 7, 102, 278
 system of, 120, 125
 theory of, 44, 114, 158
 Numbers, 60, 23, 211, 215, 263, 279
 even, 43–144
 ordinal, 281–282
 prime, 82–84
 properties of, 172, 174, 176
 quantities of, 2, 72, 74, 251, 271
- Objectivism, 267
 Objects, group of, 17, 60, 164
 Observational themes, 69, 99, 125, 141
 Ockham, William, 14–17, 20–21, 24–25, 29–32, 35, 36, 44–45
 Ontology, intuition in, 18
 Operations, sequence and systems of, 74, 87, 103, 111, 118, 150, 158, 177, 199, 206–207, 223, 283
 Opinion, validity of, 256–257
 Optative logic, 57
- Padoa, Allessandro, 280, 282
 Pantheism, 12
 Papacy, the, 8, 14–15
 Paradoxes, 5, 36, 39, 42–48, 54, 143, 162, 281–282
 Parallelisms, 59, 72
 Parameters, 125, 127, 193–194
 Parfent'ev, N. N., 224
 Paris, 5–6, 8, 19, 35, 44
 Paris, University of, 25, 28, 96
 Pascal, Blaise, 57–58, 62
 Pasigraphy, applied, 9, 63, 65, 68–69, 277
 Paul of Venice, 20–21, 44, 48–49, 52

- Peano, Giuseppe, 253, 266, 276, 278–282
- Peirce, Charles Sanders, 5, 144, 161, 169, 177–178, 212, 214, 253, 262–263, 276
negation of a proposition, 261
pragmaticism of, 255–257, 284
scientific values, 255, 257
and semiotics, 257, 284
on truth, 259
- Peripatetic School, 6, 9, 50, 52
- Permutation of variables, 93, 205
- Peter of Mantua, 20, 35–36
- Peter of Russia, 96
- Peter of Spain, 6–9, 13, 20, 23, 27, 32, 35, 50, 52
- Peter of Tartaret, 28
- Petri Lombardi*, 35
- Phenomena, 59, 66, 80, 156
- Philology, 79, 171, 190
- Philosophy, fields of, 2, 19, 55–58, 62, 69, 91, 96–97, 104–105, 112, 114, 127, 131, 143, 145, 150–151, 203, 264, 266
- Philip the Fair, 15
- Phrenology, 114, 150–151
- Physical action, 59, 79, 112, 171, 264
- Physics, methods of, 18–19, 57, 79–80, 113, 162, 248
- Pietism, spirit of, 96, 104
- Plato and Platonism, 2, 17, 39–40, 43, 144–145, 163, 264
- Plouquet, Gottfried, 101–105, 107–112, 115, 125–128, 133, 148, 161–162
- Poincaré, Jules Henri, 280
- Polygons, class of, 102
- Polynomial
equivalent, 208–209
logical, 235–236, 247–248, 251
syllogistic, 216, 238–241
- Popov, P. S., 90, 264
- Poretskiy, Platon Sergeyevich, 120, 264, 189, 191, 211, 214–239, 242–246, 253, 276, 271, 284
- Porphyry of Tyre, 2–3, 22, 35

- Povarov, G. N., 214
- Poy, D., 205
- Pragmaticism, 254–257, 284
- Prantl, Karl, 1, 3, 36, 46
- Predicates, 11, 73, 122, 243
calculus of, 35, 213, 261, 265
logic of, 261, 271
quantification of, 150, 154, 160–161, 203
of statements, 61, 110, 148–149
- Premises, system of, 35, 109, 155, 187, 219
- Principia Mathematica*, 171, 216, 266
- Probability
conditional, 169
logic of, 77–78, 98, 214–215, 277
theory of, 93–94, 168–169, 173, 175, 178, 205, 219, 247, 263, 284
- Proclus, 2
- Product, sum of, 208, 232, 250
- Proof, process of, 18–19, 59–60, 64, 73–75, 89, 98, 101, 190, 214, 264, 276, 280
- Property
addition of, 102, 141
characteristics of, 63, 85
contradictory, 88
sum of, 132
of symmetry, 106
of terms, 3, 7
of transitivity, 227
and truth, 144, 197
- Proposition
forms of, 16, 29, 34, 60, 91, 149, 164, 229, 281

- Proposition (*continued*)
 logic of, 12–13, 25, 107–109,
 119, 159, 223, 243, 245, 247,
 259, 267–268, 271
 modality of, 152, 215
 partial, 83, 123, 153
 proof of, 37, 48, 64, 73
 structure of, 7, 45–46, 112, 140
 universal negation of, 83, 87,
 100, 102, 123, 126, 134, 153
