## INDEX

Bakhmeteff, B. A., 9	Mean-velocity profiles
Batchelor, G. K., 2	in laminar hydromagnetic
Blake, L. R., 6, 74	flows, 24, 66
Boundary conditions	in turbulent hydrodynamic
for hydrodynamic flows, 7	flows, 11
for hydromagnetic flows, 17, 62,	in turbulent hydromagnetic
79	flows, 30, 52, 81
17	
	Millikan, C. B., 7, 52
Chandrasekhar, S., 2	Murgatroyd, W., 2, 33, 83, 86
	N::
Dimensional analysis	Nikuradse, J., 7, 9, 12, 36
for turbulent hydrodynamic	Normalizing parameters, 15
flows, 7	for laminar induction-driven
for turbulent hydromagnetic	flow, 63
flows, 27, 81	for turbulent d-c flow, 18, 21, 22
	for turbulent induction-driven
Eckert, E. R. G., 41	flow, 75
Energy-density ratio, 16	•
Energy-density ratio, to	Power
B 1 11 - 6 1	
Friction factor	losses in d-c flows, 85
defined, 13	losses in hydrodynamic flows, 13
in computing flow losses, 13,	relations for induction-driven
85. 86	flows, 71, 86
in correlating experimental	Prandtl, L., 9
data, 41	
in hydrodynamic flows, 13	Reynolds number defined, 16
in hydromagnetic flows, 30, 32,	Reynolds stresses, 26
52, 84	Rightmire, B. G., 52
Friction Reynolds number, 9	g, 2. a.,
Friction velocity, 9	Skin effect, 6, 62, 66, 75
	Slip in induction-driven flows, 67,
Fritsch, W., 9	- ·
	69, 82
Hartmann, J., 2, 5, 24, 32, 69, 83,	Stuart, J. T., 2
86	Symmetry properties of hydromag-
Hartmann number	netic flows, 19, 62, 75, 99
defined, 23	
effect on transition to turbulence,	Turbulence
41	in d-c flows
Hunsaker, J. C., 52	dimensional analysis for, 27
Hydraulic diameter, 8	equations for, 15
	experimental data for, 32
Invine T F In 41	structure of, 52
Irvine, T. F., Jr., 41	511401410 01, 51
I amino m flour	in hudnodynamic flows 1 7
Laminar flow	in hydrodynamic flows, 1, 7
in d-c flows. 24	in induction-driven flows, 75
in induction-driven flows, 61	
Laufer, J., 7, 11, 12, 13, 60, 76	Velocity correlations
Lazarus, F., 2, 32, 83, 86	in turbulent hydrodynamic
Lock, R. C., 2	flows, 12
	in turbulent hydromagnetic
Magnetic Reynolds number	flows, 58, 81
defined, 16	Velocity-defect law
in d-c flows, 4, 24	in hydrodynamic flows, 10
In induction-driven flows, 6, 83	in hydromagnetic flows, 27
	von Karman, T., 9
Mean-current densities	You Kalinan, 1., 7
in laminar induction-driven	Wall relacity law
flows, 68	Wall-velocity law
in turbulent d-c flows, 56	in hydrodynamic flows, 9
in turbulent induction-driven	in hydromagnetic flows, 27
flows, 81	Watt, D. A., 74
