## Index

Abstract object, 8, 46 Acceptance conditions (for conditionals), 107 contrasted with belief, 79-81, 93 of a proposition, 77, 79, 99 of a sentence, 37 state, 81 Actual world, 2, 43, 45-46, 48-50, 76, 149, 163, 166 Adams, Ernest, 106, 113 Adams, Robert, 51, 53 Antirealism, 147, 149, 153, 158, 160 Armstrong, David, 101 Assent (to a sentence), 37, 38, 69, 104 Assertion, 5, 92 Assertive utterance, 37 Assumption, 79, 80 Atomism (in semantics), 34 Augustine, Saint, 47-48 Autonomous semantics, 40 Autonomy, 162 Autonomy assumption, 153 Ayer, A. J., 158, 159, 160

Bare truth, 147, 160–164, 167–168
Bayesian decision theory, 91
Behaviorism, 16, 153
Belief, 7, 13, 15, 19, 20, 23, 27, 32, 60, 79, 80
active, 89
of animals, 62, 64, 72
attribution, 59, 62, 73
change, 96, 98, 99, 104
conditional, 102–103, 106, 115, 119
degree of, 98
disjunctive, 113
general, 101
factual, 102

holistic nature of, 64 inconsistent, 25, 81 justified, 90 mathematical, 72 partial, 80, 98 perceptual, 66, 70 shared, 40 skepticism about, 64 social character of, 67 tacit, 68, 104 (see also Presupposition) unconscious, 81 Belief-desire explanations, 23, 60, 79 Belief states, 60, 69, 82, 83, 96, 98 integration of, 87, 98 separate or fragmented, 86-87 Bivalence, 147, 165, 168 Burge, Tyler, 39, 67, 75

Carnap, Rudolf, 32 Carroll, Lewis, 151 Causal and explanatory statements, 153 Causal connection, 14, 102, 155 Causal powers, 155, 157, 159 Causal-pragmatic analysis, 23-24, 38 Causal-pragmatic picture, 32 Causal theory of perception, 162 Causal theory of reference, 18-20, 28, 34 Causation (analysis in terms of counterfactuals), 155-156 Change function, 99, 102, 119 Chisholm, Roderick, 154 Comparative similarity. See Similarity Compositional semantic theory, 35 Conceptual hierarchy, 162 Conceptual priority, 54 Conditional excluded middle, principle of, 133, 135–137 Conditional noncontradiction, principle of, 108

Conditional propositions, 61, 103, 115, Deductive reasoning, 25 116, 117, 120 Deductive relations, 86, 87 Conditional questions, 110, 114-115 de Finetti, Bruno, 103 Conditionals. See also Counterfactuals Definition by enumeration, 30 abstract analysis of, 119, 122, 128, 134, Dennett, Daniel, 10, 64, 65, 71 147, 154 Denotation, 28-29 indicative, 106, 151 Dependence, causal and counterfactual, material, 70, 106-108 14, 97, 116. See also Independence open, 106-108, 111-112, 115-116 Desire, 15, 19, 20, 23, 60, 79, 80, 101 proposition-expressing, 112 Dispositional concepts, 103 strict, 125 Dispositional properties, 16, 156 subjunctive, 106, 111, 112, 155 Dispositional states, 19, 38 truth-conditions for, 106 Dispositions Conditional sentences, 99, 103, 104 to assent, 69 Conjunction condition (on belief and conditional, 82, 101 acceptance), 82, 90, 93, 94 linguistic, 37 global, 94-95 methodological, 103-104 Consequence condition (on belief and rational, 83 acceptance), 82, 88-90 Domain of discourse, 58 Consistency, 52 Dretske, Fred, 90 Dummett, Michael, 35, 147, 160, 165, Consistency condition (on belief and acceptance), 82-83 167, 168 Content, 7, 18, 21, 23, 25, 59, 85, 152 Context-dependence Empiricists, 112 of belief attributions, 65 Entailment, 10, 71, 97 of comparative similarity, 127 Enthymematic reasoning, 81 of conditionals, 109, 111, 125, 132, Epistemic policy, 111, 119 147-148, 150 Epistemic relevance, 115 essential, 151-152 Epistemic situation, 116, 151 of justification, 90 Equivalence, problem of, 24-25, 72 of quantifiers, 151 Even if conditionals, 124 Context-dependent language, 40 Extreme realism. See Realism about Contradictory, 52 possible worlds Contraposition, 122, 124-125 Convention, 32–33 Fact, particular, 101, 157, 158 Conversational maxims, 110 Feedback mechanisms, 12 Counterfactuals, 14, 131, 138, 148-150, Fidelity conditions, 12, 37, 66 156, 168. See also Conditionals Field, Hartry, 7, 10, 14-15, 27-29, 32-34, Goodman on, 97 philosophical problem of, 117, 121, 129, Fine, Kit, 127, 157 Fodor, Jerry, 10, 59, 60, 71 realism about (see Realism) Frege, Gottlob, 3, 35, 68 reduction of (see Reduction) Function (mathematical), 2-3 Functionalism, 15, 22 Davidson, Donald, 20, 21, 36-38 Functional state, 15 Deduction, problem of, 25, 72, 75 Fusion, 8 Deductive closure (of belief and knowledge), 76 Gibbard, Allan, 108, 110, 111, 113, 130 Deductive conditions (on belief and acceptance), 94 Goodman, Nelson, 97, 103, 128, 154, Deductive inquiry, 76, 86-87, 99 155
