Subject Index

- Accounting betas, 135
- Accounting methods, 45
- Active portfolio, 141, 143–144
- Alpha, 178
- Analysts' recommendations, 55–58
- AT&T, 102–103, 128–129, 159–160
- Bank Administration Institute, 171–173, 178, 179
- Banks, investment performance of, 55
- Barriers, to price changes, 10
- Bean jars, 60–61
- Beta
 - definition of, 125–126
 - estimation of, 126–130
 - and market timing, 155
 - as measure of risk, 136
 - predictability of, 130–133
 - problems in estimation, 133–135
 - relation to return, 157–165
- Block trades, 47
- Borrowing, 106–108, 146, 157–161
- Capital asset pricing model
 - description of, 157–162
 - implications of, 165
 - tests of, 162–165
- Closet indexing, 147
- Common factor
 - in earnings changes, 93–95
 - in stock returns, 117, 142–143
- Comovement of earnings, 93–96
- Competition, 16–17
- Constant-growth formula, 69–72
- Correlation
 - between companies' earnings changes, 88–89, 91
 - between forecast and actual returns, 56, 59, 144, 149, 151–152
 - between international markets, 118–119
 - between stock returns, 101–103
 - between successive earnings changes, 88, 92
 - between successive stock returns, 6–10
- Costs of dealing, 14–15, 19, 152, 155
- Cyclical companies
 - beta of, 135

- Cyclical companies (continued)
earnings behavior of, 93–96
- Daily patterns, in stock returns, 15–16
- Data mining, 20
- Dealers, 45
- Depreciation, 72
- Discounted dividend model, 67–74
- Diversification
benefits of, 102–103, 111–114
consistent policies, 145, 146
international, 118–121
by pension funds, 113
- Dividends
discounted value of, 67–74
effect of announcement, 26–28
- Dividend yield, 19, 108, 141, 161–162
- Earnings
comovement of, 93–96
effect of announcement, 45
random walk in, 83–93
and stock prices, 83–85
- Efficient market hypothesis
implications of, 59–61
semi-strong form, 25–46, 53
strong form, 53–61
weak form, 3–20, 53
- Efficient portfolios
definition of, 101–108
diversification of, 150
performance of, 150
turnover of, 152–153
- Elasticity, of demand, 35–44
- Filter rule, 10, 13–14
- Fixed costs, 135
- Forecasts
of earnings, 76, 83, 93
- of stock returns, bias in, 60–61, 153–154, 155
of stock returns, errors in, 56, 59, 60–61, 149, 151–152
of stock returns, potential gains from 149–152
- Fundamental analysis, 3, 16–17, 25
- Growth companies, beta of, 135
- Growth stocks, 68–72
- Horizon, forecasting, 68–69
- Human capital, 161
- Income stocks, 68–72
- Index funds, 60, 144, 147
- Industry factor
in earnings changes, 94–95
in stock returns, 114–117
- Inflation, 72–73
- Insiders, effect of sales by,
- Insurance companies
effect of sales, by, 43–44
investment performance of, 55
- Interest rate, real, 72
