

INDEX

- Alfvén numbers, 19
- Alfvén velocity, 7
- Alfvén waves, 21
 - amplitude of, 64
 - effect of, on shock, 62
 - eigenvectors and eigenvalues of, 43
 - experiments with, 44
 - large-amplitude effects in, 44
- Bazer, J., 2
- Boundary conditions at perturbed shock, 37, 58
- Burgers, J. M., 3, 32, 37
- Cauchy-Kowalewski theorem, 117
- Chu, B. T., 35
- Collision frequency, 101
- Congruent transformation, 129
- Continuity, equation of, 34
- Courant, R., 135
- Current inertia
 - criterion for oscillations due to, 170
 - importance of, 101
- Delcroix, J. L., 86
- Demutskii, V. P., 18
- Density ratio, limiting, 23
- Divergent waves, graphical solution for, 72
- Eigenvalues, complex, 138
- Eigenvectors, complex, 144
- Energy
 - equation of, in perfect fluid, 35
 - put into diverging waves by shock, 65
- Energy balance among small-amplitude waves, 64
- Energy density of small-amplitude waves, 49
- Energy flux, 6
 - of small-amplitude waves, 50
- Energy propagation
 - for Alfvén wave, 50
 - for entropy wave, 50
 - for magnetoacoustic wave, 52
 - velocity of, 47
- Energy surface, 10
- Entropy
 - equation, 36
 - ordering of end states according to, 13
- Entropy extremum, 15
- Entropy waves
 - eigenvalue of, 43
 - eigenvector of, 43
- Ericson, W. B., 2
- Evolutionary shock, 33, 61, 212
- Fast and slow sound, *see Magneto-acoustic waves*
- Fast shock, 13
 - existence, 150, 177, 188, 197
- Friedrichs, K. O., 2
- Germain, P., 4, 12, 13, 14, 17, 86, 103, 108, 110, 114, 132, 182, 207
- Gilbarg, D., 3, 85, 110, 167
- Gogosov, V. V., 32
- Goldstein, H., 125, 129
- Grad, H., 68, 85
- Green, H. S., 87, 89, 92, 94, 96
- Groot, S. R. de, 86, 91
- Group velocity
 - classification of waves, 74
 - definition of, 46
 - magnitude of, 47
- Hall current, 103, 104
- Haviland, J. K., 86
- Hayes, W. D., 3
- Heat flux, current coupling into, 116
- Heat-flux vector, 91
- Helfer, H. L., 2
- Hilbert, D., 135
- Hirshfelder, J. O., 86, 92
- Hoffmann, F. de, 2, 100
- Inertial Theorem for Quadratic Forms
 - application of, 175, 185, 193
 - statement of, 133
- Intermediate shock, 13, 165, 179, 190
 - 197
- Kontorovich, V. M., 69
- Kotchine, N. E., 32, 83
- Kulikovskii, A. G., 86, 110, 182
- Landau, L. D., 32, 207
- Lefschetz, S., 110
- Levinson, N., 167

- Lifschitz, E. M., 32, 207
 Lighthill, M. J., 47
 Liouville equations, 88
 Liubarskii, G. Y., 80, 83
 Liubimov, G. A., 86, 110, 182
 Ludford, C. S. S., 86, 110
 Lust, R., 2
 McLachlan, N. W., 110
 Magnetoacoustic wave speeds, 15, 21
 22, 23, 27
 Magnetoacoustic waves, 44
 effect of, on shock, 58
 eigenvectors and eigenvalues of, 45
 Marshall, W., 110
 Mass flux, 6
 Mechanical analogy, 66
 Momentum, equation of, in perfect
 fluid, 35
 Monte-Carlo method, 86
 Morawetz, C. S., 86
 Napolitano, L., 2
 Navier-Stokes approximation, 86
 Node, 113
 Nonevolutionary shock, 33, 61, 66
 fate of, 79
 Normal disturbances, effects of, 67
 Normal-momentum flux, 6
 Normal-momentum surface, 9
 Null surface, 111, 118
 Olbert, S., 87
 Orthogonality properties, 126, 128,
 130, 152
 Oscillations, 208
 Paolucci, D., 3, 85
 Patrick, R. M., 213
 Permutation symbols, definition,
 identity, 34
 Perturbation equations, 36, 57
 for monochromatic plane waves, 42
 Phase velocity
 definition of, 45
 diagram, 72, 76
 magnitude of, 46
 transformation properties of, 46
 Plasma frequency, 102
 Point-source diagram, 52
 equations for, 55
 Polovin, R. V., 18, 80, 83
 Pressure tensor, 7, 91
 Propagation vector,
 boundary condition on, 37
 definition of, 37
 Rankine-Hugoniot relations, 2, 6, 7, 8
 Rayleigh line, 14, 16
 Reflection, law of, 69, 71
 Refraction, law of, 69, 72
 Rossi, B., 88
 Rotational discontinuity, 67
 Saddle point, 113
 Shercliff, J. A., 13, 14, 23, 28
 Sherman, F. S., 85
 Shock adiabatic, 17, 25, 26, 27
 exact equation for, 21
 Shock thickness, 114, 208
 Shocks
 collisionless, 86
 evolutionary, 33, 61, 212
 fast, 13
 existence of, 150, 177, 188, 197
 intermediate, 13, 165, 179, 190, 197
 nonevolutionary, 33, 61, 66
 fate of, 79
 slow, 13, 159, 178, 189, 197
 strong, 23, 28
 velocity of, 24
 switch-off, 13
 existence of, 203
 stability of, 68, 80, 83
 switch-on, 13, 216
 existence of, 203
 experimental observation of, 212,
 217
 stability of, 68, 80, 83
 weak, 21
 Singular perturbation, 168
 Singular points, 111
 Slow shock, 13, 159, 178, 189, 197
 Spiral point, 113
 Spitzer, L., 86, 95, 102
 Stability, definition, 33
 Strong shocks, 23, 28
 velocity of, 24
 Subshock, 169, 173, 174
 Switch-off shock, 13
 existence of, 203
 stability of, 68, 80, 83
 Switch-on shock, 13, 216
 existence of, 203
 experimental observation of, 212,
 217
 stability of, 68, 80, 83
 Syrovatskii, S. I., 43, 80, 83
 Talbot, L., 85
 Teller, E., 2, 100
 Topological behavior of integral curves,
 158, 162, 204
 Transverse-momentum flux, 6
 Transverse-momentum surface, 9
 Von Mises, R., 110
 Weak shocks, 21
 Weyl, H., 100
 Weyl gas, 15
 Ziering, S., 86
