Index

- Absorbing chain, 68, 71, 128
- Abstraction, levels of, 6
- Adjacent, 96
- Antibalanced, 107
- ARROW, K. J., 36, 53
- ASCH, S. E., 54, 65
- Average values, 29
- Axioms, 9
 - consistent, 11, 12, 19
- Balance, 95, 99, 100
 - antibalanced, 107
 - duobalanced, 107
- BELLMAN, R., 112, 119
- BERGER, J., 5
- Between, 10, 12
- BLOCK, H. D., 53
- Bounded, 123
- Branching process, 78, 79
 - customer, 84
 - time, 87
- Branch points, 134
- BRODBECK, M., 8
- BROUWER Fixed Point Theorem, 124
- Business economics, 78
- Busy period, 84, 90
- Canonical form, 12, 57
- CARTWRIGHT, D., 100, 104, 108
- Chicken farm, 109, 113
- Closed, 123
- COHEN, B. P., 54, 65
- Commodity bundles, 36, 125
- Communicate (states), 128
- Communication network, 95
- Complete ranking, 13
- Conforming, 56
 - temporary, 56
- Connected, 12, 96
- Conserving system, 69
- Consensus ranking, 9, 20
 - reliability of, 22
- Consistent, 11, 12, 19
- Continuous, 123
- Convex, 40, 123
- Cycle, 96
 - of scientific method, 4
- Cyclically, 26
- DANTO, A., 8
- Data, 54
- Deduction, 3
- Derivatives, partial, 125, 138
- Deterministic models, 5
- Differential equations, 25, 50
- Distance, 9
- DOOB, J. L., 75
- Duobalanced, 107
- Dynamic model, 24, 35
- Dynamic programming, 109
- Ecology, 24
- Equilibrium, 5, 26
 - point, 26, 38
 - price vector, 39
 - set, 35
 - stable, 26
 - unstable, 26
- Equivalence relation, 11
- Ergodic
 - chain, 67, 102, 128, 130
 - transition matrix, 69
- ESTES, W. K., 6
- Euclidean m -space, 123
- Excess demand vector, 37
- Experiment, 54
- Explication, 5
- FEIGL, H., 8
- FELLER, W., 94
- Fixed Point Theorem, 123, 124
- Function
 - generating, 79, 85, 132
 - of two variables, 138
- Fundamental matrix, 71, 129, 131
- GALTON, F., 78

- Generating function, 79, 85, 132
 - tail, 132
- Geometric
 - distribution, 79
 - service time, 84
- GOOD, I. J., 87
- Graph, 96
 - directed, 96
 - line, 107
 - signed, 97
 - theory, 95, 96
- Gross substitution, 40

- HARARY, F., 100, 104, 108
- HARRIS, T. E., 94
- HEIDER, F., 99, 108
- HUNT, G. A., 75
- HURWICZ, L., 36, 53

- Imaginary numbers, 8
- Indifference curves, 48, 126
- Induction, 3
- Isomorphic, 98

- KEMENY, John G., 6, 8, 20, 131
- KENDALL, D. G., 87, 94

- Land of Oz, 130
- Law of Large Numbers, 60
- Learning experiments, 6
- LEFSCHETZ, S., 25, 34
- Levels of abstraction, 6
- Lines, 96
- LOTKA, A. J., 24, 34
- Lower class, 93

- Market stability, 35
- Markov chain, 54, 57, 67, 74, 75, 78, 102, 124, 128
 - absorbing, 68, 71, 128
 - branching process, 78, 79
 - ergodic, 67, 102, 128, 130
 - fundamental matrix, 71, 129, 131
 - random walks, 75
 - regular, 130
 - watched in select states, 71
- Matrix, 11
 - fundamental, 71, 129, 131
 - ordering, 12
- Mean, 19
- Median, 19

- Models
 - deterministic, 5
 - dynamic, 24, 35
 - probabilistic, 5
- Money flow, 66
- MORGENBESSER, S., 8

- Network, communication, 95
- New York City Police Department, 96
- Nonconforming, 56
 - temporary, 56
- NORMAN, R. Z., 108

- Optimal
 - procedure, 112, 116
 - scheduling, 109
- Optimization problems, 109
- Ordering matrices, 12
- Organization theory, 95
- Oz, Land of, 130

- Partial derivatives, 125, 138
- Path, 96
- Planning, 7
- Points, 96
- POPPER, Karl R., 8
- Potential
 - operator, 75
 - theory, 66, 75
- Preference
 - rankings, 9
 - relation, 11
- Probabilistic models, 5
- Production processes, 109

- Random walks, three dimensional, 75
- Ranking, 12
 - complete, 13
 - consensus, 9, 20, 22
 - preference, 9
- RAPOPORT, A., 33, 34
- Regular chain, 130
- Relations
 - consistent, 12
 - equivalence, 11
 - preference, 11
- Response, terminal, 55

- SCARF, H., 48, 53
- Scientific method, 3
 - cycle of, 4
- Secretary of the Market, 35, 36

- Segment, 10
 - final, 55
 - initial, 55
- Service time
 - constant, 84
 - geometric, 84
- Slack periods, 90
- SNELL, J. Laurie, 6, 131
- Sociology, 54
- Stable, 38, 40, 42
- States communicate, 128
- Status, measure of, 104
- Structure theorem, 100
- Substitution, gross, 40
- System, conserving, 69
- Terminal response, 55
- Trajectory, 25, 38
- Transition matrix, 128
 - ergodic, 69
- Tree diagram, 134
- Unstable, 42
- Upper class, 93
