

# Index

- Ahlfors, L. V., 140  
Aoki, M., 165  
Aumann, R. J., 24
- Bacharach, M., 21  
Balance of payments  
algebraic analysis of, 77–94  
continuous-time model for, 70–77  
geometrical analysis of, 77–94  
and international monetary regimes, 69–77
- Berkovitz, L., 91  
Bertrand, J., 25  
Bliss point, 72  
Braga de Macedo, J., 165  
Brito, D. L., 119  
Brunner, K., 30  
Bryant, R. C., 164  
Buchanan, J. M., 5, 27, 34
- Canzoneri, M., 164, 165  
Collective action  
Olson's theory of, 32–34  
theory of public goods and, 32–33
- Cooper, R. N., 45, 46, 49, 51, 62, 96, 109, 153
- Corden, N. M., 27, 28, 165  
Cournot, A., 24
- De Grauwe, P., 51  
de Menil, G., 166  
Dornbusch, R., 47, 98, 106, 113, 122
- Edgeworth, F., 24  
Ellis, H. S., 39  
Ethier, W., 119  
Exchange rates, fixed, 54–63
- Exchange rates, flexible, 63–65  
Exchange-rate regimes  
devaluation and, 109  
effect of changes on, 95–115  
fixed exchange rates and, 100–102  
flexible exchange rates and, 102–106  
and model of small open economy, 97–100  
and optimal currency areas, 109–110  
role of nontraded goods in, 106–109  
and supply shocks, 110
- Feldstein, M. S., 166  
Fellner, W., 21, 25  
Fixed price model, policy interactions in, 52–63
- Fleming, J. M., 30, 164  
Flexible price model, 67–94  
and differential game theory, 89–94  
long-term implications of, 85–88  
role of reserve-currency country in, 85–88
- Friedman, B., 99  
Friedman, J., 25  
Frohlich, N., 33
- Game theory  
basic concepts of, 21–24  
differential, 89–94  
equilibrium concepts in, 23–24  
solution concepts in, 23–24
- Gold standard, 14–15
- Gordon, R. J., 96  
Gorman, W., 50  
Guggenheim, T., 39
- Hamada, K., 50, 85  
Helliwell, J., 51

- Henderson, J. M., 153  
Hicks, J. R., 137  
Hurwicz, L., 166
- IMF dollar standard, 15–16  
Inflation, analyses of rate of, 77–94  
Ingram, J. C., 27
- Johansen, L., 164  
Johnson, H. G., 27, 50, 67, 148  
Jones, M., 164
- Keynes, J. M., 21  
Koeheane, R. O., 167  
Komiya, R., 106, 166  
Krämer, H. R., 37, 38  
Krasner, S. D., 166
- Laffer, A. B., 29  
Latin Monetary Union, 37–38  
Laursen, S., 117  
Luce, D., 20
- McKinnon, R. I., 31, 47, 67, 96, 109, 144, 164  
McRae, R., 51  
Managed float, 3–4  
desired levels of exchange rates and, 149–153  
framework for analysis of, 144–149  
and international monetary regimes, 17  
redundancy problem and, 153  
transmission of economic fluctuations and, 153–157
- Meade, J. E., 45  
Meltzer, S. A., 30, 117  
Miller, M. H., 165  
Monetarist (quantity theory) model, 52  
Monetary integration  
benefits of, 28–30  
characteristics of, 31  
components of, 28–29  
costs of, 30–31  
in Germany, 34–35  
historical perspective on, 34–40  
in Italy, 35–36  
in Japan, 36  
Latin Monetary Union and, 37–38  
political economy of, 27–44  
Scandinavian Monetary Union and, 38
- Monetary interdependence, international  
central problem of, 46
- defined, 2–3  
desired levels of exchange rates and, 149–153  
direct coordination approach to, 47  
fixed exchange rates and, 54–63  
fixed price model and, 52–63  
flexible exchange rates and, 63–65  
flexible price model and, 67–94  
Keynesian model of, 45–65  
managed float system and, 143–161  
monetarist (quantity theory) model and, 52  
monetary approach to, 52–53  
optimizing approach to, 49–50  
policy assignment approach to, 47–51  
strategic approach to, 50  
quantity theory (monetarist) model and, 52
- Monetary regimes, international  
algebraic analysis of interplay among, 77–94  
balance of payments and, 69–77  
choice of, 11–25  
defined, 2  
differential game theory of, 89–94  
flexible exchange rate system and, 16–17  
game-theoretic analysis of, 17–21  
geometrical analysis of interplay among, 77–94  
gold standard and, 14–15  
IMF dollar standard and, 15–16  
interplay of, 68–77  
managed float and, 17  
and national interests, 13–17  
postwar history of, 3–4  
world central bank and, 16
- Monetary relations, international, 1–9  
Monetary unification, 28–29  
Money hoarding, microeconomics of, 111–115  
Mundell, R. E., 29, 47, 48, 49, 52, 54, 63, 68, 117, 150, 164  
Mussa, M., 98, 113, 122, 143
- Niehans, J., 47, 49, 50, 52  
Nielsen, A., 38  
“Nixon shock”, 4
- Ohyama, M., 112, 113  
Ōishi, S., 39  
Okuguchi, K., 21  
Oligopoly theory, 24–25  
Olson, M., 27, 32, 43, 68, 80, 82

- and theory of collective action, 32–34  
Ono, Y., 25  
Oppenheimer, J. A., 33  
Oudiz, G., 165  
Ōwase, T., 21
- Parkin, N., 51  
Participation, calculus of, 32–34, 42–44  
Policy interdependence, survey of, 45–52
- Quantity theory (monetarist) model, 52
- Raiffa, H., 20  
Riker, W. H., 32  
Rogoff, K., 165
- Saitō, R., 37  
Sakudo, Y., 36  
Samuelson, P. A., 20  
Scandinavian Monetary Union, 38  
Scarf, H., 24  
Scitovsky, T., 50  
Simaan, M., 91  
Spending behavior, microeconomics of, 111–115  
Stackelberg, H. von, 25  
Stagflation, 117–142  
fixed exchange rates and, 131–134  
flexible exchange rates and, 126–131  
nonunitary elasticity of substitution in consumption and, 134–137  
two-country model of, 119–126, 139–142  
variable consumption velocities of money and, 137–138  
Suzuki, M., 21  
Swoboda, A. K., 27, 47
- Takayama, T., 91  
Telser, L. G., 25  
Tinbergen, J., 47
- Ueda, K., 85
- Wagner, R. E., 33  
Willis, H. P., 37  
World Central Bank, 16
- Yeager, L. B., 12  
Yoshida, Y., 140
- Zeckhauser, R., 32, 43, 80
