

# Index

- adaptive expectations, 124, 125
- affine factor model, 440
- amnesia, 729
  - of risk-sharing contract, 645, 703
- approximation
  - higher order, 360
- arbitrage, 236, 237, 482
  - no-arbitrage principle, 236, 237, 433
- Arrow securities, 208, 223, 224, 740, 823
- asymmetric information, 662
  - hidden income and hidden storage, 673
- autarky value, 641
- autocovariogram, 45
- back-solving, 336, 596
- balanced growth path, 452
- Bellman equation, 85, 91, 406, 785, 826, 1018
  - dynamic games, 207
  - stacked, 199
- Benveniste-Scheinkman formula, 91, 193, 234, 554, 555, 580
- best response, 985
- Bewley models, 153, 566, 570
- Black-Scholes formula, 399
- borrowing constraint, 393
  - endogenous, 741
  - natural, 312
- call option
  - European, 399
- capacity utilization, 965
- capital overaccumulation, 341
- capital tax, 503
- carrot and stick, 760, 805, 807
- cash-in-advance constraint, 888
- Cauchy-Schwarz inequality, 430
- certainty equivalence, 115, 554
  - proof, 113
- Chebyshev polynomial, 106
- coefficient of relative risk aversion, 424
- coinsurance, 668
- cointegration, 59, 554
- commitment
  - one-sided lack of, 640
  - technology, 773
  - two-sided, 662, 673
  - two-sided lack of, 697
- competitive equilibrium, 776, 907, 919
  - sequential trading, 227
- complete markets, 208, 823, 906
  - no role for money, 857
- conditional covariance, 396
- conditional expectation, 33
- constant absolute risk aversion, 600
- constant relative risk aversion, 600
- contract design, 698
  - dynamic program, 700
- costate vector, 119
- covariance stationary, 42
- credible government policies, 802
- credit and currency, 904
- cross-equation restrictions, 349
- curse of dimensionality, 94
- debt limit
  - natural, 225
- deficit finance, 273
  - as cause of inflation, 866, 917
- deposit insurance, 608
- discretization
  - of state space, 95
- distorted transition density, 397
- distribution
  - Gaussian, 72
  - invariant, 32
  - log normal, 428
  - multinomial, 38
  - stationary, 31, 32, 52, 569
- double coincidence of wants, 983
- doubling algorithms, 112
- duality, 118
  - of control and filtering, 1029
- dynamic optimization, 85
- dynamic programming, 49, 85, 773
  - discrete state space, 96
  - linear quadratic, 109
  - squared, 23, 775

- eigenvalue, 116
  - decomposition, 120
- employment lottery, 941, 960
  - layoff taxes, 968
- endowment stream, 637
- equilibrium, 862, 926, 929
  - incomplete markets, 566
  - multiple, 266
  - rational expectations, 196
  - recursive competitive, 196
  - stationary, 571, 573
- equity premium, 104
- equivalent martingale measure, 260
- Euler equation, 118
- Euler's theorem, 451
- exchange rate, 924
  - determinacy, 875
  - indeterminacy, 593, 874, 928
- expectations
  - disappearance of, 197
  - theory of the term structure, 64
  - without promises, 275
- family
  - one big happy, 963
- fanning out
  - of wealth distribution, 655
- filter
  - linear, 72, 122
  - nonlinear, 1040
- fiscal theory of inflation, 872
- folk theorem, 773
- Fourier inversion formula, 53
- Friedman rule, 869, 880, 892, 914, 917
  - and free banking, 597
  - Bewley's model, 597
  - credibility, 893
- functional equation, 86
- gift-giving game, 914
  - with overlapping generations, 297
- Gram-Schmidt orthogonalization, 1024
- growth
  - exogenous, 453
  - externality, 454, 468
  - nonreproducible factors, 466
  - reproducible factors, 456
  - research and monopolistic competi-  
tion, 461, 468
- Growth model
  - stochastic, 367
- guess-and-verify method, 47, 88, 90, 266
- hazard rate, 153
- history dependence, 215, *see* reputation
  - lack of, 231
  - of consumption stream, 641
  - of contracts, 641
  - of strategies, 802
- Howard improvement algorithm, 49
- human capital, 459, 527
- hyperbolic absolute risk aversion, 600
- impulse response function, 46
- Inada condition, 368, 451
- incentive-compatibility constraint, 663, 687
- incomplete markets, 517
- indeterminacy
  - of equilibrium, 624
- innovation
  - in time series representation, 123
- innovations representation, 1029
- interest rate peg, 872
- intertemporal elasticity of substitution, 453
- inverse optimal prediction, 124
- island model, 940, 941, 991
  - layoff taxes, 975
- Italy and Brazil
  - inflation and measured deficits, 897
- Jensen's inequality, 412
- Kalman filter, 122, 123, 1023
- Kalman gain, 123
- Kronecker product, 174
- Laffer curve, 280, 866, 921
- Lagrange multiplier, 115
- law of iterated expectations, 33, 34
- law of large numbers, 51
- law of one price, 432
- layoff taxes, 962
  - employment lottery, 968
  - island model, 975
  - matching model, 978

- least-squares projection, 51
- legal restrictions, 869, 922
  - Terror, 870
- lending with moral hazard, 820
- likelihood function, 38, 51
  - Gaussian, 72
  - multinomial, 38
- linear quadratic
  - approximations, 128
  - dynamic games, 199
  - dynamic programming, 109
- linear rational expectations models, 71
- logarithmic preferences, 89
- lotteries
  - firms, 963
  - households, 960
  - man-made, 410
- Lucas tree
  - in overlapping generations model, 271
- Lyapunov equation, 112
  - discrete, 47, 241
- market price of risk, 430
- Markov chain, 29, 569
  - hidden, 1040
- Markov perfect equilibrium, 200
  - fish and fishers, 199
  - linear, 199
  - prices and inventory example, 202
  - self-control, 207
- martingale, 40, 398
  - convergence theorem, 555, 670, 672
  - difference sequence, 40
  - equivalent measure, 398
  - equivalent measure, 261, 396
- matching model, 940, 946
  - dispersion of match values, 995
  - heterogeneous jobs, 953
  - layoff taxes, 978
  - match surplus, 940, 948, 951
  - matching function, 947
  - separate markets, 957
  - skill-biased technological change, 995
  - wage announcements, 958
- maximum likelihood, 38, 72
- measurement equation, 1041
- method of undetermined coefficients, 90
- money
  - commodity, 928
  - demand function, 861
  - inside, 590
  - outside, 590
  - search model, 981
- monopolistic competition, 461, 886
- moving average representation, 46
- Nash bargaining, 948
- Nash equilibrium, 777, 982
  - infinite repetition, 793
- natural debt limit, 225, 313
- no-trade result, 222
- observer equation, 1042
- open market operation, 862
  - another definition, 868
  - in private securities, 296
  - one big one, 870
  - one definition, 867
- optimal growth, 89
- optimal inflation tax, 880
- optimal linear regulator, 108, 112, 118, 129, 200, 1017
  - dynamic game, 199
- optimal quantity of money, 868
  - Friedman rule, 880
- optimal savings problem, 95, 545
- optimal taxation
  - ex ante* capital tax varies around zero, 503
  - commitment, 478
