## general references

- U. S. National Resources Committee. Research Committee on Urbanism. Our cities, their role in the national economy. Washington, Gov't. Printing Office, 1937.
- Urban problems and techniques: a forum on technical problems in an expanding urban society. Edited by Perry L. Norton. West Trenton, N. J., Chandler-Davis, 1959. (Urban problems and techniques, no. 1.)

The first of three intended volumes with articles contributed by individual authors. The first volume provides an introduction to a wide variety of subjects. Minor errors are typographical rather than factual and do not detract from the usefulness of the book.
