Alpha, 140
Artificiality, 246
Association, 23, 129, 136, 149, 154
Attribute, 15, 129, 165, 189
Autocorrelation, 217, 219
- Bayes' rule, 17, 75, 92, 137
Before-and-after design, 250, 253, 263, 266
Bernoulli trial, 54, 91, 93
Beta distribution, 57, 95
Binomial
 coefficient, 51
 distribution, 53, 93
- Campbell, Donald, xvii
Categorical data, 32
Causality, 154, 155, 220
 causal intermediary, 157, 221
 multivariate, 158, 221
 reciprocal, 156
Central tendency, 33, 275
Chebyshev inequality, 44
Chi-square
 statistic, 142
 test, 117, 141
 distribution, 143
Cobb-Douglas production function, 210
Cochran, W., 226
Coefficient of determination (R^2), 168, 172
Coefficient of variation, 42, 170
Contingency table.
 See Crosstabulation
Control group, 246
Correlation, 193
 coefficient 171, 228
 spurious, 155, 221
Cross section, 217, 219
Crosstabulation, 16, 129
Crossvalidation, 181
- Data sets for problems
 activity limitation, 28
 agricultural land 48, 187
 ambulance response, 12
 building permits, 12
 community development funds, 185
 crime rate, 68, 184
 family money income, 69
 home sales, 13
 hospital emergency room, 279
 mobile home production, 280
 mortgage lending, 162
 municipal expenditures, 125
 needs of elderly, 104
 neighborhood characteristics, 46
 neighborhood health centers, 28
 neighborhood variety, 234
 Nigerian capital markets, 103, 163
 property tax base, 47
 real estate assessment, 27
 urban concentration, 233
- Degrees of freedom
 for chi-square distribution, 143
 for F distribution, 214
 for t distribution, 110
Demonstration, 249
Detoxification center, 79
Dispersion, 38, 107, 275
Dummy variable, 205
Durbin-Watson statistic, 217
- Elasticity, 175, 210
Entropy, 38, 81, 134, 146
Error in measurement, 222, 226
Experiment, 155, 241, 248
Experimental mortality, 244
Eyeballing, 117, 170, 172
- F distribution, 214
Factorial, 51
False negative error, 139
False positive error, 139
Fisher's exact test, 143, 149
Full value tax rate, 105, 165

- Gaussian distribution, 61, 107, 116, 120, 178, 213, 216, 258, 265, 273
Goodness of fit, 168
Gossett, William, 110

Hawthorne effect, 246
Heteroscedasticity, 211, 216, 220, 225
Highest density region for estimate of a mean, 112, 118
of a probability, 100
of a regression coefficient, 223
of a regression prediction, 178, 215
Histogram, 9, 31
History, 243, 253
Hoaglin, David, 144, 229
Homoscedasticity, 216, 220
Hypergeometric distribution, 49, 77, 143

Independence, 23, 55, 92, 138
null hypothesis of (*see* Null hypothesis)
Instability, 245, 264
Instrumentation, 244, 253

Jack Sprat design, 251, 266
Junk term, 253, 258

Kmenta, Jan, 227

Lambda, 131
Least squares, 170, 222, 228
Level of measurement, 31, 265
Likelihood function, 25, 76, 77, 93, 106, 110
Lindley, D. V., 137
Logarithm. *See* Transformation
Logit, 205, 210

Mann-Whitney test, 265, 275
Marginals, 16, 24, 141
Matching, 255, 265
Maturation, 243, 253
Mean, 36, 165
sample, 105, 118, 125, 212
Median, 35
sample, 123, 125
Metric data, 32, 165
Mid-interquartile range, 38
Midrange, 38, 121
Mode, 5, 16, 35, 52, 130, 132, 165
Monte Carlo simulation, 257
Mosteller, Frederick, xvii
Multicollinearity, 151, 197, 222, 223
Municipal expenditures, 196

Needs assessment, 23
Nominal data, 32
Nonequivalent control group design.
