# Subject Index

- Ability, 170–171, 178, 342n5, 343n2, 343n3
- Academia, 167, 217, 246, 348n5  
ethnic subdivisions in, 229  
performance measures in, 261–266  
(*see also* Performance measures)  
progress in (*see* Progress)  
rank (*see* Rank)  
salary (*see* Salary)  
structure of, 218–220  
teaching load (*see* Teaching load)  
tenure (*see* Tenure)
- Achievement  
in academia, 217  
and men, 268  
potential, 15  
professional, 60, 184  
recognition of female, 58  
in traditionally female areas of excellence, 157–158  
in traditionally masculine areas, 30, 153, 157–159
- Accumulation of advantage and disadvantage, 3, 8, 165, 197, 263, 285, 303, 323, 326–328  
and the classroom, 64–65  
computer simulation of, 3  
and human capital, 255  
psychological, 177–178  
and success, 4–5, 142–144, 183  
unequal opportunity and, 248, 252
- Activity level, 75–77, 112  
and aggression, 79  
and hormonal differences, 76
- Admission rates, 348n7
- Advancement, 136, 190, 194, 215, 324, 327  
and affirmative action, 287  
institutional policies to increase fairness in, 315–316 (*see also* Progressive policies)  
slow, 136, 215, 217, 220, 249, 251, 255, 266
- Affirmative action, 277–278, 346n7  
and competence, 288–290  
equal opportunity procedures, 277, 279, 301  
and gender schemas, 284  
and generally progressive policies, 281 (*see also* Progressive policies)  
impact on beneficiaries, 283–287, 351n4  
negative psychological effects of, 283, 287  
neutralization of, 287–290  
impact on organizations, 279–283, 351n2  
in engineering, 279  
in government agencies, 279  
in the police force, 280  
informal, 284  
misunderstandings of, 278, 290  
negative perceptions of, 282–283
- African American, 317, 340n1, 342n1, 343n1, 349n1, 351n1, 351n3, 351n4 (*see also* Minority)
- Aggregate data, 187–188, 217, 312

- Aggression  
 and activity level, 79  
 and cultural differences, 77  
 discouragement of, 50, 335n2, 336n1  
 and gender labeling, 49  
 and honor, 78  
 peers' reaction to, 52  
 and provocation type, 78  
 sex differences in, 77, 121, 338n6  
 teachers' reactions to, 51, 336n2
- Assertiveness, 129–131
- Androgens. *See* Hormones
- Athletics. *See* Sports
- Attribution of success and failure, 19–22, 168–170, 172, 177, 183–186, 343n4  
 to ability and effort, 168–170, 177, 327, 343n2, 343n3  
 and gender schemas, 168  
 to luck, 20–21, 170, 182, 327  
 to sex, 172, 343n3
- Attrition rate, 158, 327
- Backlash, 323
- Belief perseverance, 106
- Biology. *See* Hormones
- Blocking, 312–313. *See also* Covariation
- Business. *See* Professions
- Cammermeyer, Margarethe, 294
- Candidate pool, 139–142, 309–310
- Central Intelligence Agency (CIA), 197, 301. *See also* Rank
- Child care, 269, 271–272, 331. *See also* Parents; Teachers
- Children. *See also* Parents; Teachers  
 chores, 32–34  
 effects on peers, 52–58
- Chromosomal status, 10, 68
- Citadel, 299–300, 349n1
- Citation rate, 264–265
- Cognitive basis of gender schemas, 112–118
- Cohesion, 122
- Cohort data, 188, 192, 200, 202, 206, 217, 224
- Congenital adrenal hyperplasia (CAH). *See* Hormones
- Confirmation bias, 106
- Corporate law departments, 204
- Covariation. *See also* Blocking  
 detection of, 310–312  
 training in the logic of, 312–313
- Credible persuasion, 316–317
- Cross-cultural sex differences, 85, 338n2
- Denial of personal disadvantage, 164
- Discrepancy, male/female  
 academic productivity (*see* Productivity)  
 human capital (*see* Human capital)  
 income (*see* Salary)  
 promotion (*see* Promotion)  
 rank (*see* Rank)  
 salary (*see* Salary)
- Discrimination, 350n3. *See also* Accumulation of advantage; Gender schemas  
 denial of, 164–166  
 lawsuit (*see* Lawsuits)  
 overt, 277  
 statistical, 256–257
- Doll play, 31, 34–37
- Editorial boards, 248
- Effort, 168–170, 177  
 costs of, 185–186
- Endorsement, 327
- Engineers. *See* Professions
- Equal opportunity procedures. *See* Affirmative action
- Equal pay, 189–190, 192, 195, 213
- Equal protection provisions, 299
- Equality. *See* Fairness
- Estrogen. *See* Hormones
- Evaluation. *See* Gender schemas
- Exceptions, 6–7, 164

- Expectation effects, 145–147, 339n5, 345n4  
 on children (*see* Parents; Teachers)  
 and entitlement, 159, 161–162  
 on men, 149–152  
 and schemas, 106  
 on women, 147–152, 156  
 Evaluation bias effects, 341n3, 342n5  
 Eye gaze. *See* Gaze
- Facial reactions to leaders, 131, 133, 149  
 effect of, 133
- Fairness, 1–3, 6–7, 26, 142, 253, 330–331  
 difficulties of insuring, 7  
 in the division of household labor, 39–46  
 and institutional leadership, 300  
 policies to increase, 315, 316
- Faulkner, Shannon, 299–300
- Female-dominated jobs, 162
- Feminine gender schema, 11, 13–15, 110–112, 197, 209, 269  
 and perceptions of professional incompetence, 127–129  
 and success and failure, 20–21
- Gaze, 149–152, 304, 326, 342n1
- Gender appropriateness, 28  
 encouragement of, 28, 31
- Gender constancy, 48
- Gender differences. *See* Sex differences
- Gender discrimination, 47, 164, 166, 179  
 and aggression, 49  
 and toy preference, 49
- Gender norms, 48, 55, 178
- Gender percentages, 245  
 in academia, 224–226, 230–233  
 definition, 200  
 in law, 201–203, 206–207
- Gender roles, 11, 38, 158  
 flexibility in, 44
- Gender schemas, 6–7, 11–13, 22, 70, 196, 209, 215–216, 232, 323, 333n1, 351n1  
 and affirmative action, 284  
 and areas important for self-esteem, 153–154, 267  
 automatic activation of, 308  
 as barriers to affirmative action, 281–283  
 change of, 66, 215, 330  
 children's knowledge of, 48  
 clash of, 15, 121  
 cognitive origins of, 112–118  
 and credit for achievement, 180, 255, 284  
 definition of, 2  
 educating children about, 307  
 entrenchment of, 118  
 for women, 15, 66, 125  
 and evaluations, 14  
 feminine characteristics (*see* Feminine gender schema)  
 freedom from, 9  
 influence of, 16, 125, 129, 140, 172, 174, 252, 254  
 on adults' perceptions, 24–26, 30, 103  
 on children (*see* Parents, Teachers)  
 and leadership ability, 125, 126, 130, 282  
 learning about, 304  
 legal remedies for, 302  
 masculine characteristics (*see* Masculine gender schema)  
 nonconscious, 2, 25, 118, 129, 175, 315  
 parents' (*see* Parents)  
 and physical differences, 108–109, 117  
 and professional evaluation, 167–168, 174, 180, 260, 265, 274, 289–290, 303, 309  
 and race schemas, 277, 280, 347n7  
 and role schemas, 104–107  
 and self-definition, 110, 273  
 and self-perception, 19–22

- Gender schemas (cont.)  
 and sexual division of labor, 117  
 of sexual victimization, 122  
 teachers' (*see* Teachers)  
 violations of, 168, 182, 324  
 in within-gender comparisons, 289
- Gender stability, 48
- Glass ceiling, 1, 3, 215
- Grand Slam tournaments. *See* Tennis
- Group achievement, 154
- Group decision making, 56
- Harassment, 300
- Harrison, Jenny, 297–298, 301
- Height estimation, 6, 73, 126, 253, 308
- Homosexuals, 122–123, 294, 317, 337n3
- Hopkins, Ann, 111, 291–295, 298, 309
- Hormones  
 activational and organizational effects, 337n1  
 and activity level, 10, 76  
 androgens, 76, 339n8  
 congenital adrenal hyperplasia (CAH), 76, 95, 339n8  
 estrogens  
 and spatial ability, 71  
 and perceptual speed, 81  
 and social psychological context, 69  
 testosterone level, 69, 70  
 and aggression, 79  
 and mental rotation, 10, 69–71, 99, 338n4  
 in women, 71  
 and time of day  
 and time of year, 71
- Household responsibilities. *See also* Child care  
 amount, 39, 336n6  
 inequity, 39–46  
 and part-time work, 269  
 and performance measures, 260  
 sexual division of, 12, 33, 40–41, 58–59
- Human capital, 190, 192, 193, 195, 197, 254–257, 350n2, 350n3  
 and rank and tenure, 234, 251, 254  
 and salary, 204, 209, 212, 214, 251, 254  
 variables determining, 349n2
- Humanities. *See* Academia
- Hypothesis confirmation, 167
- Hypothesis formation, 2, 12, 38  
 about social groups, 2, 104, 106  
 nonconscious, 118
- Illusory correlation, 313–314
- Income. *See* Salary
- Independent thinking, 154
- Individual achievement, 154, 159
- Inequity, 192, 251, 276
- Infant (gender) characteristics  
 in greeting cards, 24  
 misperceptions of, 9, 24–26, 28, 334n1  
 sex differences in activity level, 75
- Interdependent thinking, 154
- International business, 196–197
- Interpreting success and failure, 167
- Johns Hopkins, 319, 320, 321
- Judges, 206–208, 348n7
- Katten Muchin & Zavis, 301
- “Der Kinderstube,” 31–32
- King, Billie Jean, 213
- Law, 187, 214. *See also* Professions  
 law firms, 199–204, 258–261, 267, 348n7  
 law school rank, 202  
 performance measures in (*see* Performance measures)  
 structure of profession, 198–199
- Lawsuits  
 for bonus money, 301  
 effects on employees, 301  
 effects on employers, 301–302  
 forfeiture of right to sue, 301–302  
 (*see also* Katten Muchin & Zavis)

- for partnership, 291–293
- for school admission, 299–301
- for tenure, 297–299
- Lawyers, 188, 198, 199, 267, 347n2, 347n3, 348n4, 348n5
- in-house, 204–206, 214
- Leadership, 125–127
  - ability, 126
  - perception of, 127, 255, 282, 324
  - covariation of, with rank, 310
  - and expert knowledge, 326
  - and gender schemas, 284, 291, 310–311, 324
  - legitimization of, 316–317
  - military, 252
  - style, 129, 133–134, 323
- Legal ability, 258, 260
- Luck, 21, 137, 170, 182
  
- Male-dominated professions, 138, 186
- Marriage. *See* Household responsibilities; Child care
- Masculine gender schema, 11, 13–14, 70, 110–112, 133, 177–178, 182, 197, 256, 284, 346n5
- and success and failure, 20–21
- Math skills, 61, 66, 81, 153. *See also* Mental Rotation
  - application of, 84–85
  - cultural differences in, 85
  - gendered explanations of success and failure, 62
  - influence of teachers' expectations (*see* Teachers)
  - jobs requiring, 192
  - problem solving, 84–85, 339n4
  - and professional success, 60
  - SAT-Math, 63, 90, 93, 156, 192, 338n2
  - self-rating, 61, 337n5
  - sex differences in, 62, 83, 153, 156–157, 339n5
  - underestimation of girls' math abilities, 64
  - variability, 93
  - word problems, 84–85, 86, 87, 88
    - and conversational principles, 88–89
- MBA's, 193–195, 203, 214
- Median score (definition) 349n2
- Medicine, 187, 208–210, 319. *See also* Professions
- Memory process, 168–169
- Mental rotation, 70, 157, 339n9. *See also* Hormones
  - and math, 84, 94–96, 339n6
- Mentors, 320, 325
- Meta-analysis
  - activity level, 75, 338n6
  - aggression, 77–78
  - attributions, 170–172, 178, 182–183, 346n6
  - evaluation bias, 341n3
  - influence and leadership, 56, 133–134
  - mathematics, 83
  - mental rotation, 94–95
  - parental behavior, 27–28, 59, 335n2, 336n1
  - personality, 110
- Military character, 252
  - and cohesion, 122
  - and sexual orientation, 122–123, 294, 317, 340n6 (*see also* Homosexuals)
  - training methods for building, 252–253
  - and women, 121
- Military schema, 121
- Minority. *See also* African American minorities, 179–180, 277, 287, 315, 347n1
  - men, 347n7
- Mixed-motives defense, 292, 295–296, 298
- Money, 217
- Motherhood, 115, 269–270
  - and part-time work in law
  - and productivity in academia

- Norm, men as, 103, 110–112, 117, 214
- Norwich University, 300
- Nurturant behavior, 209, 255, 324 and aggression, 77
- Objective performance criteria, 296, 318, 321
- Overt discrimination, 1, 190, 296
- Parents  
 egalitarian, 29–30, 59, 332  
 and gender schemas, 59, 61  
 influence of on children, 61–63  
 measurement of, 62  
 influence of on children, 62–63  
 perception of children, 24–26, 334n1  
 treatment of children  
 expectations, 60–63, 339n5  
 gender differences in speech patterns, 28–29  
 gender (in)equality in, 27–28, 34–37, 47, 59, 61
- Perception of bias, 159
- Perceptual distortions, 2, 7  
 of children, 24–26  
 of men and women, 7–8, 26, 103, 126
