## Index

Note on pattern indexing: Individual patterns are generally not indexed here since they are listed in a separate index (page 585). The page numbers of the Civic Intelligence pattern, for example, would not be listed here. Patterns that are listed in the “Linked patterns” section at the end of each pattern are also not indexed. Patterns, however, that are referred to within the context chapters (1–7, 9–10) or are referred to within a pattern and are *not* listed in the linked patterns section of the pattern are indexed here. Finally, when patterns from either *A Pattern Language* (Alexander et al. 1977) or *Liberating Voices* (this volume) are indexed here, they are annotated with either *APL* or *LV* and their number within their respective pattern language.
