## Index

- Abstraction, 257. *See also* Concepts
- Acceptability constraints, 254–255
- Action, 26. *See also* Intentional action(s); Motor system
- Aristotelian and teleological approach of, 22–26
- control of, by intention, 185
- defined, 118, 201–202, 302, 312
- as essential to naturalization of perceptive intentionality, 315
- as essential to the nature of visual intentionality, 310–315
- intentional, 161–163
- defined, 161
- folk concept of, 31
- intention as relevant to the explanation of, 305–307
- intention before, 21
- intention in, 30, 33, 141, 165, 181, 186, 247, 302 (*see also* Intentional action(s))
- Background and, 248
- defined, 11, 29
- efference and, 43, 57, 59
- embodying and objectifying, 117
- naturalizing, 3–5, 40, 192, 195, 323–325
- vs. prior intention, 21, 22, 29, 164 (*see also* Prior intention)
- translating motivational states into, 41
- two faces of, 33, 181
- vs. movement, 21, 23–25, 118–120, 162, 165, 327
- nature of, 302–304
- perception and, 171, 172
- perception of the effects of, 40
- principle of rational, 208
- problems caused by separation of intention from, 325
- problems of the contemporary theory of, 28–36, 36n1
- from third-person point of view, 185–188
- Action awareness. *See also* Awareness reconstructive account of, 52
- Action-event, homogenous causal theory of, 23
- Action experience
- facilitates detection of behavioral manifestation of goals, 71–72, 81–82
- restructures representations of other's actions, 82–83
- yields introspective insight, 83
- Action goals, 171
- mirror neurons in monkeys and, 210–212
- ontogeny and phylogeny, 207–210
- Action perception. *See under* Action; Action production

- Action production, 81  
 action perception and, 69–72, 77–81, 83–84  
 natural variability in, 71–77  
 as engine in development, 71–72  
 and role of agency, 81–84
- Action recognition, defined, 7
- Action simulation, 210–212
- Action understanding, 93, 94, 102, 208, 210  
 action production and, 71  
 action simulation and, 210–212  
 defined, 7–8  
 experience and, 208
- Adjustments of movement, 187, 190–191. *See also* First-person perspective; Third-person point of view  
 defined, 8
- Adumbrations, 273, 275, 276, 278
- Affordance, 35, 205  
 defined, 8
- Agency, 50, 51f, 58  
 action production and the role of, 81–84  
 defined, 8  
 parietal cortex and sense of, 46  
 phenomenology of, 40, 41
- Agent (of intentional action), 161, 176  
 defined, 161–162  
 as “unreasonable” actor, 161, 176
- Akins, K., 315
- Allen, Colin, 326
- “All-out judgment,” 34
- “Anakastic” restraint, 25
- Andersen, R. A., 45
- Anscombe, E., 22, 24, 27, 31, 34, 162
- Anterior cingulate cortex (ACC), 41–42, 152  
 defined, 8
- Anterior insular cortex, 153
- Anticipated intention, 248, 263.  
*See also under* Intentional states motivating actions of others; Time awareness  
 defined, 8
- Anticipating the end of an action, 41.  
*See also under* Intentional states motivating actions of others; Time awareness
- Anticipation vs. prediction, 102
- Aristotelian approach of action, 22–26, 91
- Aristotle, 23–25, 35, 35
- Attention  
 defined, 8  
 and intention shape the body schema, 283–284  
 modulates audition, 281–282  
 modulates vision, 282–283
- Attribution of intentions, observation of another’s action and, 120–123
- Audiovisual mirror neurons, 211
- Auditory cortex, attention and, 281–282
- Automatisms. *See* Sensorimotor automatisms
- Awareness. *See also* Conscious intention; Time awareness  
 of motor act, and brain activation, 148–153  
 of a voluntary motor act, sudden, 142–148
- Beer, R., 104
- Being, sense of, 270
- Beliefs  
 defined, 8  
 intentional actions and, 107  
 motivating others’ actions, knowledge of, 99–100 (*see also* Intentional states motivating actions of others)
- Berthoz, A., 308, 310–311, 314
- “Blind-touch,” 169

- Bodily intention, 40, 165, 166, 172–176  
 characteristics, 170–176  
 defined, 8, 161  
 vs. mental intention, 166, 172  
 structuring role, 170–176
- Bodily movements, 201
- Body, neurosciences of the intentional, 170–176
- Body image, 166, 167, 169, 170. *See also* Body schema  
 vs. body schema, 166–169  
 defined, 8, 166, 167
- Body reading  
 vs. theory of mind, 239
- Body schema, 166–170  
 vs. body image, 166–169  
 defined, 8, 166, 167
- Bottom-up vs. top-down mechanisms, 143, 144, 147
- Brentanian intentionality, 295, 307
- Buneo, C. A., 45
- Canonical form of intention, 325
- Canonical neurons, 205, 236–238, 312–313  
 defined, 9, 204  
 and multimodal representation of organism-object relation, 205  
 visual and motor activity, 174–175
- Cassirer, E., 256–259
- Causalism, 163–166
- Causal role of intentions, 39
- Causation(s), 261  
 wayward, 34
- Causes (of actions), 39  
 defined, 9  
 formal and logical, 24
- Causes-reasons debate, 22, 23
- Cerebellum, 54
- “Chance.” *See also* “Lucky” actions  
 for an intention, 249  
 goal reached by, 10
- Charles, David, 23
- Children. *See also* Action production  
 action processing in, 68 (*see also* Infancy)
- Cingulate cortex. *See* Anterior cingulate cortex
- “Classical sandwich model,” 170
- Cognition, social, 99, 216
- Cognitive intentionalism. *See also* Intentionalism  
 argument in favor of, 305–309  
 neurocognitive turn of the problem of, 294–298  
 and pragmatist claims of cognitive neuroscience, 293–294
- Cognitive neuroscience  
 vs. cognitivism, 297  
 pragmatist claims of, 293–294, 304–305, 313  
 argument in favor of cognitive intentionalism, 305–309
- Collateral movement, 188, 189
- Concepts, 256–260, 264n6  
 vs. intuition, 256–257
- Conditions of satisfaction for action, 184, 185, 193, 202, 247  
 defined, 9
- Conscious intention, 47–49. *See also* Awareness; Will, conscious  
 defined, 9
- Consciousness, 176  
 defined, 148
- Constitution theory, 280  
 reassessing the intentionality of kinesthesia in, 273–279
- Control intention, 185, 192, 194, 195
- Cortical oscillatory patterns, 271
- Criterion intention, 185
- Csibra, G., 208
- Davidson, D., 27–28, 32, 242n6, 265n9
- Decéty, J., 313–314
- Decision to move, defined, 9

- Deecke, L., 42
- Deliberation, 23, 26  
defined, 9
- Desires, 107, 117. *See also* Intentional states motivating actions of others  
defined, 9  
vs. intentions, 326
- Dilthey-Scheler controversy, 279
- Distal goals, 202, 208, 209, 212, 214  
defined, 10
- Dorsolateral prefrontal cortex (DLPFC), 44–46
- Dualism, 25–28, 163–165, 323, 324
- Durkheim, Émile, 259
- Efference, raw, 43, 59
- “Efferent consciousness,” 58
- Efferent copy, 53, 55, 57, 59, 241  
defined, 10
- Efficient causes, 23
- Effort sense, 149  
defined, 16  
vs. muscle force sense, 153
- Eimer, M., 48
- Eliminativist view, 294, 334
- Ethology, 107–108
- Ex-afference, 53
- Execution, intention and, 30
- Executive representation, 29
- Externalism, 248–250  
vs. internalism, 262, 324–325
- Externalist-naturalist account of intention and intentional action, 329
- Externalist naturalization, 325, 334
- False-belief task, 239
- First-person perspective, 189–191  
coordinating the third-person and, 192–195
- Fluidity  
of action, 185  
of movement, 187, 188
- Formulation intention, 192–195
- Forward model, 12
- Free will, 39, 40, 47, 334
- Future action, evoking the intention of, 30
- Future- vs. present-directed intention, 29, 30
- Gallagher, S., 229, 239
- Gallese, Vittorio, 308, 312–313, 328  
on goal as willed relational attitude, 307  
on goal states, 327  
on intentional attunement, 102–103, 108, 232–233  
on prediction of action outcomes, 102
- Gergely, G., 208, 209
- Ginet, C., 32
- Goal detection, 208–209
- Goal-directed action, 121–122, 127, 165, 173, 174, 238–239. *See also* Topocinetic actions  
ability to evaluate and predict others’, 209  
defined, 10  
in infants, 71, 72, 76, 78, 79, 81, 84, 207, 208  
mirror neurons and, 237–238
- Goal-directed agents. *See* Agency; Agent
- Goal-directed grasping and reaching, 78, 81, 92, 203–205, 207. *See also* Motor system
- Goal-directed movements, actions and, 202
- Goal directedness, 327–328
- Goal reached by chance, 10
- Goal relatedness, 207, 308
- Goal representations, 83, 207. *See also* Motor representations;  
Representation, of goal states
- Goals, 26. *See also* Action goals  
defined, 10, 207, 307  
distal, 10, 202, 208, 209, 212, 214

 anterior part of, 8  
 posterior part of left, 14, 150–151, 150f
- Insular cortex, anterior, 153
- Intention, 325. *See also specific topics*  
 characteristics, 248  
 defined, 9, 40, 247, 262–263  
 dual status/two faces of, 28–31, 34  
 historical perspective on, 3–4  
 identification criteria, 251–260  
 integrative view of, 5, 6f, 7  
 invocation of, and its logical constraints, 260–262  
 “monist” conception of, 335  
 types of, 29–30
- Intention* (Anscombe), 24, 31. *See also* Anscombe
- Intentional action(s)  
 aspects/elements of, 40, 55–56  
 beyond the agent’s conscious control, 330  
 executing, 328–329  
 experienced as intentional, 329–330  
 functional signatures of, 40–41, 47  
 sensory attenuation as occurring only for predicted efferent events, 55–56, 56f  
 sensory suppression, 52–55  
 time awareness of action and intentional binding, 49–52  
 time awareness of intention and anticipation, 47–49  
 from mental intentions, 325–326  
 of monkeys, as understood by other monkeys, 91–99  
 perceiving others’, 329, 331–333  
 phenomenological signature of, 41, 56–57  
 constructing agency, 58–60  
 reconstructing agency, 57–58  
 planning, 326–327
- Intentional agent’s perception of external world, 331
- Intentional arc, 172
- Intentional attunement, 102–103, 108, 217, 218

- Intentional attunement hypothesis, 216–217
- Intentional behavior, phenomenology of, 39–40
- Intentional binding, 9, 50, 51f, 52, 175–176
- Intentionalism. *See also* Cognitive intentionalism  
aspects of the problem of, 299–302
- Intentionality. *See also* Cognitive intentionalism; Kinesthesia; Visual intentionality  
basic, 96–97  
Brentanian, 295, 307  
defined, 11, 295  
determination of, 295–296  
intention as pragmatic form of, 307  
naturalization of, 296, 301–302  
perceptive, 315  
pragmatic, 308 (*see also* Pragmatist theories of intentionality)  
property of  
  cognitive relevance of, 294  
  nature of, 294–295  
relevance of, extended to explanation of other cognitive phenomena, 308–309  
as relevant to explanation of action, 307–308  
“Intentional maps,” 45
- Intentional processes  
links to action, 6f, 7  
model of, 6f, 7
- Intentional states motivating actions of others, knowledge of  
monkeys as lacking, 99–100  
as necessary for action understanding, 101–106
- Intention understanding, defined, 11
- Interacting intentionally with others, 333–334
- Interaction, 231. *See also* Intersubjective relations; Sharing  
defined, 11–12  
Goffman’s theory of, 248, 252–256  
online, 232–234  
role of, 203
- Interactional vs. noninteractional observations of others, 231–234
- Interactionist approach to intention, 248, 250, 252–253
- Intercorporeity, 215
- Internalism, 165–166, 170, 247  
vs. externalism, 324–325
- Internal models, 52–53, 241  
defined, 12
- Intersubjective actions, 227, 240–242
- Intersubjective relations, 229–231, 234, 236. *See also* Sharing  
ability to entertain, 239  
acted, 238–239  
triangular relation, 235–237
- Intersubjectivity, 192–194, 217, 234–236  
defined, 12, 235  
transcendental, 234–235, 242n1 (*see also* Constitution theory)
- Intuition vs. conceptualization, 256–257
- Inverse model, 12
- Involuntary action, defined, 12
- Involuntary movements, 40, 49–51, 55, 56f, 176
