Chapter Examples xiii

Preface xix

1

2

	w to Use This Textbook xxi
	cillary Materials xxii
Ac	knowledgments xxii
Intro	duction 1
1.1	What Is Microeconomics? 1
1.2	Comparative Statics 2
1.3	Overview of the Book 2
	1.3.1 Consumer Theory 2
	1.3.2 Production Theory 4
	1.3.3 Markets—Putting Consumers and Producers Together
	1.3.4 Strategy—Let's Play Games! 5
	1.3.5 Putting Game Theory to Work 5
	1.3.6 More Market Failures—When Markets Work Well
	and When They Don't 6
	and when they bon to
Cons	sumer Preferences and Utility 7
Con : 2.1	sumer Preferences and Utility 7
	sumer Preferences and Utility 7 Introduction 7
2.1	Sumer Preferences and Utility 7 Introduction 7 Bundles 7
2.1 2.2	Sumer Preferences and Utility 7 Introduction 7 Bundles 7
2.1 2.2	Sumer Preferences and Utility 7 Introduction 7 Bundles 7 Preferences for Bundles 8
2.1 2.2 2.3	Sumer Preferences and Utility 7 Introduction 7 Bundles 7 Preferences for Bundles 8 2.3.1 Ranking Bundles with More Units 10
2.1 2.2	Introduction 7 Bundles 7 Preferences for Bundles 8 2.3.1 Ranking Bundles with More Units 10 2.3.2 Satiation and Bliss Points 12 Utility Functions 14
2.12.22.32.4	Introduction 7 Bundles 7 Preferences for Bundles 8 2.3.1 Ranking Bundles with More Units 10 2.3.2 Satiation and Bliss Points 12 Utility Functions 14
2.12.22.32.4	Introduction 7 Bundles 7 Preferences for Bundles 8 2.3.1 Ranking Bundles with More Units 10 2.3.2 Satiation and Bliss Points 12 Utility Functions 14 Marginal Utility 18
2.12.22.32.42.5	Introduction 7 Bundles 7 Preferences for Bundles 8 2.3.1 Ranking Bundles with More Units 10 2.3.2 Satiation and Bliss Points 12 Utility Functions 14 Marginal Utility 18 2.5.1 Diminishing Marginal Utility 19
2.12.22.32.42.5	Introduction 7 Bundles 7 Preferences for Bundles 8 2.3.1 Ranking Bundles with More Units 10 2.3.2 Satiation and Bliss Points 12 Utility Functions 14 Marginal Utility 18 2.5.1 Diminishing Marginal Utility 19 Indifference Curves 20 2.6.1 Properties of Indifference Curves 22
2.12.22.32.42.52.6	Introduction 7 Bundles 7 Preferences for Bundles 8 2.3.1 Ranking Bundles with More Units 10 2.3.2 Satiation and Bliss Points 12 Utility Functions 14 Marginal Utility 18 2.5.1 Diminishing Marginal Utility 19 Indifference Curves 20 2.6.1 Properties of Indifference Curves 22
2.12.22.32.42.52.6	Introduction 7 Bundles 7 Preferences for Bundles 8 2.3.1 Ranking Bundles with More Units 10 2.3.2 Satiation and Bliss Points 12 Utility Functions 14 Marginal Utility 18 2.5.1 Diminishing Marginal Utility 19 Indifference Curves 20 2.6.1 Properties of Indifference Curves 22 Marginal Rate of Substitution 25 2.7.1 Diminishing MRS 26
2.1 2.2 2.3 2.4 2.5 2.6 2.7	Introduction 7 Bundles 7 Preferences for Bundles 8 2.3.1 Ranking Bundles with More Units 10 2.3.2 Satiation and Bliss Points 12 Utility Functions 14 Marginal Utility 18 2.5.1 Diminishing Marginal Utility 19 Indifference Curves 20 2.6.1 Properties of Indifference Curves 22 Marginal Rate of Substitution 25 2.7.1 Diminishing MRS 26

vi Contents

2.9	2.8.3 Cobb-Douglas 32 2.8.4 Quasilinear 34 2.8.5 Stone-Geary 35 A Look at Behavioral Economics—Social Preferences 36 2.9.1 Fehr-Schmidt Social Preferences 36 2.9.2 Bolton and Ockenfels Social Preferences 37
Apper Exerci	ndix. Finding the Marginal Rate of Substitution 37 ises 38
Cons	umer Choice 45
3.1	Introduction 45
3.2	Budget Constraint 45
3.3	Utility Maximization Problem 49
3.4	Utility Maximization Problem in Extreme Scenarios 55
3.5	Revealed Preference 57
3.6	Kinked Budget Lines 60
	3.6.1 Quantity Discounts 60
	3.6.2 Introducing Coupons 62
Apper	ndix A. Applying the Lagrange Method to Solve the Utility Maximization
Proble	em 64
Apper	ndix B. Expenditure Minimization Problem 65
	Relationship between the Utility Maximization Problem and the Expenditure
	Minimization Problem 68
Exerci	ises 70
Subst	titution and Income Effects 75
4.1	Introduction 75
4.2	Income Changes 75
	4.2.1 Using the Derivative of Demand 76
	4.2.2 Using Income Elasticity 77
	4.2.3 Using the Income-Consumption Curve 79
	4.2.4 Using the Engel Curve 80
4.3	Price Changes 82
	4.3.1 Using the Derivative of Demand 83
	4.3.2 Using the Price-Elasticity of Demand 83
	4.3.3 Using Price-Consumption Curves 85
4.4	Income and Substitution Effects 87
4.5	Putting Income and Substitution Effects Together 88
	4.5.1 Income and Substitution Effects on the Labor Market 94
	ndix A. Not All Goods Can Be Inferior 97
Apper	ndix B. An Alternative Representation of Income and Substitution Effects 98
F	Using Elasticities to Represent the Slutsky Equation 101
Exerci	ises 102
Mass	suring Welfare Changes 107
5.1	Introduction 107
J. I	introduction 107

5.2

Consumer Surplus 107

5.3	B Compensating Variation 110			
5.4	Equivalent Variation 114			
5.5	0 0			
Аp	pendix. An Alternative Representation of the Compensating and Equivalent			
	Variations 120			
	A.1 Compensating Variation 120			
	A.2 Equivalent Variation 122			
Ex	ercises 124			
	noice under Uncertainty 127			
6.′				
6.2				
6.3	'			
6.4				
6.5	1 ,			
6.6				
	6.6.1 Risk Aversion 132			
	6.6.2 Risk Loving 134			
	6.6.3 Risk Neutrality 136			
6.7	0			
	6.7.1 Risk Premium 138			
	6.7.2 Certainty Equivalent 139			
	6.7.3 Arrow-Pratt Coefficient of Absolute Risk Aversion 140			
6.8				
	6.8.1 Weighted Utility 144			
	6.8.2 Prospect Theory 145			
Ex	ercises 148			
_				
	oduction Functions 155			
7.				
7.2				
7.3	8			
7.4	1 2 2			
7.5	· ·			
7.6	§			
7.7	1 91			
	7.7.1 Linear Production Function 168			
	7.7.2 Fixed-Proportions Production Function 169			
	7.7.3 Cobb-Douglas Production Function 170			
	7.7.4 Constant Elasticity of Substitution Production Function 171			
7.8	Returns to Scale 171			
7.9	P Technological Progress 173			
	7.9.1 Types of Technological Progress 174			
Аp	pendix A. MRTS as the Ratio of Marginal Products 175			
Ap	pendix B. Elasticity of Substitution 176			
Ex	ercises 180			

viii Contents

8	Cost	Minimization 183
	8.1	Introduction 183
	8.2	Isocost Lines 183
	8.3	Cost-Minimization Problem 185
	8.4	Input Demands 189
		8.4.1 Input Demand—Responses 192
	8.5	Cost Functions 193
	8.6	Types of Costs 195
	8.7	Average and Marginal Cost 198
		8.7.1 Output Elasticity to Total Cost 199
	8.8	Economies of Scale, Scope, and Experience 201
		8.8.1 Economies of Scale 201
		8.8.2 Economies of Scope 203
		8.8.3 Economies of Experience 205
	Apper	ndix. Cost-Minimization Problem—A Lagrangian Analysis 206
	Exerci	ses 208
9	Partia	ıl and General Equilibrium 213
	9.1	Introduction 213
	9.2	Features of Perfectly Competitive Markets 214
	9.3	Profit Maximization Problem 214
	9.4	Supply Curves 217
		9.4.1 Individual Firm Supply 217
		9.4.2 Market Supply 220
	9.5	Short-Run Supply Curve 221
	9.6	Market Equilibrium 224
		9.6.1 Short-Run Equilibrium 224
		9.6.2 Long-Run Equilibrium 225
	9.7	Producer Surplus 226
	9.8	General Equilibrium 228
		9.8.1 Equilibrium Prices 230
		9.8.2 Efficient Allocations 233
		9.8.3 Equilibrium versus Efficiency 234
		9.8.4 Adding Production to the Economy 239
	9.9	A Look at Behavioral Economics—Market Experiments 240
		ndix. Efficient Allocations and Marginal Rate of Substitution 241
	Exerci	ses 242
40		
10		opoly 247
		Introduction 247
	10.2	, ,
	10.3	•
		10.3.1 A Closer Look at Marginal Revenue 250
	10.1	10.3.2 Solving the Monopolist's Problem 253
	10.4	0 1 ,
	10.5	, 8
	10.6	Multiplant Monopoly 260

	10.7 Welfare Analysis under Monopoly 26310.8 Advertising in Monopoly 26610.9 Monopsony 268Exercises 271
11	Price Discrimination and Bundling 277 11.1 Introduction 277 11.2 Price Discrimination 278 11.2.1 First-Degree Price Discrimination 279 11.2.2 Second-Degree Price Discrimination 281 11.2.3 Third-Degree Price Discrimination 284 11.3 Bundling 286 Exercises 291
12	Simultaneous-Move Games 297 12.1 Introduction 297 12.2 What Is a Game? 298 12.3 Strategic Dominance 300 12.4 Nash Equilibrium 306 12.5 Common Games 310 12.6 Mixed-Strategy Nash Equilibrium 316 12.6.1 Graphical Representation of Best Responses 321 Exercises 323
13	Sequential and Repeated Games 329 13.1 Introduction 329 13.2 Game Trees 330 13.3 Why Don't We Just Find the Nash Equilibrium of the Game Tree? 332 13.4 Subgame-Perfect Equilibrium 334 13.4.1 Subgame Perfect Equilibrium in More Involved Games 335 13.5 Repeated Games 340 13.5.1 Finite Repetitions 340 13.5.2 Infinite Repetitions 341 13.6 A Look at Behavioral Economics—Cooperation in the Experimental Lab? 346 Exercises 347
14	Imperfect Competition 355 14.1 Introduction 355 14.2 Measuring Market Power 356 14.3 Models of Imperfect Competition 357 14.3.1 Cournot Model—Simultaneous Quantity Competition 358 14.3.2 Bertrand Model—Simultaneous Price Competition 365 14.3.3 Cartels and Collusion 369 14.4 Stackelberg Model—Sequential Quantity Competition 373 14.5 Product Differentiation 377 Appendix. Cournot Model with N Firms 380 Exercises 383

x Contents

15	Game 15.1	es of Incomplete Information and Auctions 391
	15.2	
	15.3	Auctions 396
	45.4	15.3.1 Auctions as Allocation Mechanisms 396
	15.4	Second-Price Auctions 397 First-Price Auctions 400
	15.5	15.5.1 Privately Observed Valuations 400
		15.5.2 Equilibrium Bidding in First-Price Auctions 401
		15.5.3 Extending the First-Price Auction to <i>N</i> Bidders 405
		15.5.4 First-Price Auctions with Risk-Averse Bidders 407
	15.6	Efficiency in Auctions 409
		Common-Value Auctions 410
		A Look at Behavioral Economics—Experiments with Auctions 411
		ndix. First-Price Auctions in More General Settings 412
	Exerci	ses 414
16	Cont	ract Theory 419
	16.1	Introduction 419
	16.2	Moral Hazard 421
		16.2.1 Contracts When Effort Is Observable 422
		16.2.2 Contracts When Effort Is Unobservable 424
		16.2.3 Preventing Moral Hazard 428
	16.3	Adverse Selection 428
		16.3.1 Market for Lemons 428 16.3.2 Market for Lemons—Symmetric Information 429
		16.3.3 Market for Lemons—Asymmetric Information 429
		16.3.4 Principal-Agent Model 431
		16.3.5 Principal-Agent Model—Symmetric Information 431
		16.3.6 Principal-Agent Model—Asymmetric Information 433
		16.3.7 Principal-Agent Model—Comparing Information Settings 436
		16.3.8 Preventing Adverse Selection 438
		ndix. Showing That PC_H and IC_L Hold with Equality 439
	Exerci	ses 440
17	Exter	nalities and Public Goods 445
	17.1	Introduction 445
	17.2	Externalities 445
		17.2.1 Unregulated Equilibrium 446
		17.2.2 Social Optimum 448
	17.3	Restoring the Social Optimum 451
		17.3.1 Bargaining between the Affected Parties 451 17.3.2 Government Intervention 453
	17.4	
	17.4	17.4.1 A Look at Behavioral Economics—Public-Good Experiments 459
		Tubic Good Experiments 435

17.5 Common-Pool Resources 459
17.5.1 Finding Equilibrium Appropriation 460
17.5.2 Common-Pool Resources—Joint Profit Maximization 462
Exercises 464
