Acknowledgments ix

Introduction 1

1 Hearing and Listening 9

- 1.1 Talking and Writing about Sound 10
- 1.2 The Ear and the Brain: How We Hear 17
- 1.3 Human Hearing Ability 24
- 1.4 Protecting Your Hearing 29
- 1.5 Headphones Guide 30
- Reading and Listening Guide 31

2 Sound 33

- 2.1 What Is Sound? 33
- 2.2 Frequency 36
- 2.3 Consonance and Dissonance 43
- 2.4 Amplitude 44
- 2.5 Timbre 46
- 2.6 Wave Interference 50
- 2.7 Sound Envelopes 52
- 2.8 Smearing, Rhythm, and Masking 54
- 2.9 Selecting Sounds: Sound Libraries 55
- 2.10 Segues 59
- 2.11 Digital Sounds 60
- Reading and Listening Guide 64

3 Recording Sounds 67

- 3.1 Audio Slating 67
- 3.2 Stereo or Mono Recording? 68

3.3	Microphones and Microphone Selection	69
3.4	Recording Accessories	76
3.5	Microphone Position	80
3.6	Creative Recording	89
3.7	Prototyping Sounds	91
	Reading and Listening Guide	92

4 Sounds in Space 93

4.1	The Doppler Effect	93
4.2	Reverberation	95
4.3	Absorption and Diffusion	103
4.4	Digital Reverberation	106
4.5	Echo and Delay	108
4.6	Digital Delay	109
4.7	Phasing and Flanging Effects	112
4.8	Time-Stretching	114
4.9	Worldizing	114
4.10	Setting Up a Recording Space	116
	Reading and Listening Guide	117

5 Sound Effects 119

5.1	Tremolo and Vibrato	119
5.2	Pitch Shifting and Auto-Tune	121
5.3	Equalization	122
5.4	Filters	126
5.5	Modulation: Ring Modulation and Vocoder	130
5.6	Distortion: Overdrive and Fuzz	132
5.7	Summary and Bonus Exercises	133
	Reading and Listening Guide	135

6 Mixing 137

6.1	Mixing Theory: Three-Dimensional Sound	137
6.2	A Note on Mixing in Audacity	139
6.3	Dynamic Range	141
6.4	Compression, Limiting, and Normalization	142
6.5	Expansion and Gating	146
6.6	Ducking	146
6.7	Noise Reduction	147
6.8	Figure and Ground: Signal to Noise	148
6.9	Panning	150
6.10	Mixing across Media Devices	152

6.11	Technical versus Creative Mixing	153
6.12	Point of Audition: Objects in Ears May Be Closer Than They Appear	154
6.13	Summary and Further Mixing Exercises	156
	Reading and Listening Guide	157

7 Surround and Spatial Sound 159

7.1	Human Sound Localization	160
7.2	Binaural Audio	163
7.3	In-Head Localization	165
7.4	Surround Sound	166
7.5	Ambisonics and Object-Based Audio	168
7.6	Spatial Sound	169
7.7	Sound Propagation	170
	Reading and Listening Guide	173

8 Sound and Meaning 175

8.1	Conditioning	175
8.2	Sonic Archetypes, Stereotypes, and Generalizations	177
8.3	Basic Semiotic Theory	179
8.4	Phenomenology, Embodied Cognition, and Intersensory Integration	183
8.5	Summary	188
	Reading and Listening Guide	190

9 Sound for Story 193

9.1	Functions of Sound in Audio Story	194
9.2	The Mix	206
9.3	Audio Research	207
9.4	Audio Story Analysis	208
9.5	Spotting a Script	209
9.6	Cue Sheets	212
9.7	The Asset List	214
	Reading and Listening Guide	216

10 Conclusions and Wrap-Up 217

10.1	Self-Evaluation	220
