Preface xiii
Acknowledgments xv

Introduction 1

I FOUNDATIONS

- 1 Concepts and Measures 15**
 - 1.1 Introduction 15
 - 1.2 Concepts and Terminology 15
 - 1.3 Measuring Networks 30
 - 1.4 Reading Notes 45
 - 1.5 Questions 47

- 2 Random Origins 51**
 - 2.1 Introduction 51
 - 2.2 Erdős-Rényi Graphs 52
 - 2.3 Preferential Attachment 63
 - 2.4 The Configuration Model 70
 - 2.5 Small-World Networks 73
 - 2.6 Network-Based Linking 76
 - 2.7 A Concluding Remark 78
 - 2.8 Reading Notes 78
 - 2.9 Questions 80

- 3 The Costs and Benefits of Links 83**
 - 3.1 Introduction 83
 - 3.2 One-Sided Links 84
 - 3.3 Two-Sided Links 93

3.4	General Considerations	100
3.5	Appendix: Advanced Material on Solution Concepts	114
3.6	Reading Notes	118
3.7	Questions	121
4	Network Structure and Human Behavior	125
4.1	Introduction	125
4.2	Choice in Networks	127
4.3	Binary Games	134
4.4	Binary Games on Random Networks	141
4.5	Continuous Action Games	151
4.6	Intervening in a Network to Influence Behavior	158
4.7	Reading Notes	162
4.8	Questions	165
II	ECONOMIC NETWORKS	
5	Production and Supply Chains	171
5.1	Introduction	171
5.2	Case Study: The 2011 Japanese Earthquake	173
5.3	The Input-Output Model of Production	175
5.4	Network Structure and Aggregate Volatility	185
5.5	Supply Chains: Fragility and Resilience	190
5.6	Reading Notes	196
5.7	Questions	197
6	Infrastructure	199
6.1	Introduction	199
6.2	Airlines	200
6.3	Roads and Trains	208
6.4	Theoretical Framework for Trains and Roads	216
6.5	Optimal Spatial Transport Networks	220
6.6	The Belt and Road Initiative	228
6.7	Reading Notes	232
6.8	Questions	233
7	Security	237
7.1	Introduction	237
7.2	The Value of a Network	238
7.3	Infrastructure Networks	239

7.4	Protecting Networks against Contagious Threats	259
7.5	Reading Notes	272
7.6	Questions	273
8	Intermediaries and Platforms	277
8.1	Introduction	277
8.2	Network Externalities	278
8.3	Compatibility	287
8.4	Standards	295
8.5	Multisided Platforms	300
8.6	Chains of Intermediation	303
8.7	Reading Notes	313
8.8	Questions	314
9	Financial Contagion	317
9.1	Introduction	317
9.2	The Financial Sector: Some Background	318
9.3	Building Blocks of Financial Networks	322
9.4	Liquidity Shocks and Financial Contagion	328
9.5	Financial Shocks and Optimal Networks	334
9.6	Incomplete Network Information and Fire Sales	341
9.7	The Formation of Financial Networks	346
9.8	Reading Notes	354
9.9	Questions	355
10	Wars	359
10.1	Introduction	359
10.2	Netwars	360
10.3	Alliances and Conflict	362
10.4	Alliances, Trade, and War	371
10.5	Conquest and Empire	380
10.6	Reading Notes	396
10.7	Questions	397
III	SOCIAL NETWORKS	
11	The Law of the Few	403
11.1	Introduction	403
11.2	Empirical Background	405
11.3	A Simple Theory of Linking	406

- 11.4 Who Buys Information? 416
- 11.5 Monetizing Network Status 429
- 11.6 Reading Notes 432
- 11.7 Questions 434

- 12 Social Coordination 437**
 - 12.1 Introduction 437
 - 12.2 Coordination in a Network 439
 - 12.3 A Change in a Convention 443
 - 12.4 Co-Evolution: Conventions and Networks 447
 - 12.5 Social Coordination with Heterogeneous Preferences 456
 - 12.6 Appendix: Advanced Material 464
 - 12.7 Reading Notes 469
 - 12.8 Questions 472

- 13 Communication and Social Learning 475**
 - 13.1 Introduction 475
 - 13.2 Evidence about Social Influence 477
 - 13.3 Learning a New Technology 482
 - 13.4 A Model of Communication and Social Influence 489
 - 13.5 Experimental Evidence on Social Learning 503
 - 13.6 Verifying and Sharing Information 507
 - 13.7 Appendix 510
 - 13.8 Reading Notes 513
 - 13.9 Questions 516

- 14 Epidemics and Diffusion 519**
 - 14.1 Introduction 519
 - 14.2 Empirical Background 521
 - 14.3 A Simple Threshold for Epidemics 527
 - 14.4 The Susceptible-Infected-Recovered (SIR) Model 531
 - 14.5 The Susceptible-Infected-Susceptible (SIS) Model 542
 - 14.6 Diffusion of Behaviors 546
 - 14.7 Supplementary Material 550
 - 14.8 Reading Notes 552
 - 14.9 Questions 554

- 15 Social Ties and Markets 557**
 - 15.1 Introduction 557
 - 15.2 Product Markets 558

- 15.3 Labor Markets 571
- 15.4 Reading Notes 586
- 15.5 Questions 590

IV BROADER THEMES

16 Networked Markets 597

- 16.1 Introduction 597
- 16.2 Bilateral Exchange 598
- 16.3 Intermediaries 604
- 16.4 Research Alliances in Oligopoly 615
- 16.5 Reading Notes 625
- 16.6 Questions 628

17 Communities and Economic Growth 633

- 17.1 Introduction 633
- 17.2 The Patterns of Economic Growth 636
- 17.3 Traditional Society and New Opportunities 643
- 17.4 A Theoretical Model 645
- 17.5 *La Longue Duree* 658
- 17.6 Reading Notes 663
- 17.7 Questions 665

18 Trust 667

- 18.1 Introduction 667
- 18.2 Local Trust 668
- 18.3 Social Collateral 672
- 18.4 Generalized Trust 685
- 18.5 Local and Generalized Trust 691
- 18.6 Scaling up Trust: The Role of Social Networks 698
- 18.7 Supplementary Material: Names of Journals 701
- 18.8 Reading Notes 703
- 18.9 Questions 705

19 Groups, Impersonal Exchange, and State Capacity 709

- 19.1 Introduction 709
- 19.2 Empirical Background 710
- 19.3 Conceptual Considerations 728
- 19.4 A Model of State Capacity 730

19.5 Sources of Civic Capital	740
19.6 Reading Notes	750
19.7 Questions	752
References	755
Index	783
